

Florida resulting from Tropical Storm Nicole beginning on November 7, 2022, and continuing, are of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (“the Stafford Act”). Therefore, I declare that such an emergency exists in the State of Florida.

You are authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the designated areas. Specifically, you are authorized to provide assistance for emergency protective measures (Category B), including direct Federal assistance, under the Public Assistance program.

Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal emergency assistance and administrative expenses.

Further, you are authorized to make changes to this declaration for the approved assistance to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, Department of Homeland Security, under Executive Order 12148, as amended, Thomas J. McCool, of FEMA is appointed to act as the Federal Coordinating Officer for this declared emergency.

The following areas of the State of Florida have been designated as adversely affected by this declared emergency:

Notice of Intent To Prepare an Environmental Impact Statement and Notice of Segregation for the Proposed Jove Solar Project, La Paz County, AZ

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent and segregation.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) Yuma Field Office, Yuma, Arizona, intends to prepare an Environmental Impact Statement (EIS) to consider the effects of the Jove Solar Project (Jove Solar), an up to 600-megawatt (MW) solar photovoltaic (PV) project and battery storage system proposed on 3,495 acres of BLM-administered land in La Paz County, Arizona, and by this notice is announcing the beginning of the scoping process to solicit public comments and identify issues. The BLM also announces the segregation of the 3,495 acres of public lands from appropriation under the public land laws, including the Mining Law, but not the Mineral Leasing or Materials Acts, for a period of 2 years from the date of publication of this notice, subject to valid existing rights. This segregation will facilitate the orderly administration of the public lands while the BLM considers potential solar development on the described parcel.

DATES: This notice initiates the public-scoping process for the EIS. The BLM requests that the public submit comments concerning the scope of the analysis, potential alternatives, and identification of relevant information, and studies by January 6, 2023. To afford the BLM the opportunity to consider comments in the Draft EIS, please ensure your comments are received prior to the close of the 30-day

scoping period or 15 days after the last public meeting, whichever is later. The BLM will hold one virtual, and one in-person scoping meeting, 2 to 3 weeks after publication of this notice. Meeting details will be posted on the project website at least 15 days prior to the meetings. The segregation for the public lands identified in this notice takes effect on December 7, 2022.

ADDRESSES: You may submit comments related to Jove Solar by any of the following methods:

- **Website:** <https://go.usa.gov/xtGtR>.
- **Email:** BLM_AZ_CRD_SOLAR@blm.gov.
- **Fax:** 928–317–3250.
- **Mail:** BLM Yuma Field Office,

Attention: Jove Solar Project, 7341 East 30th Street, Yuma, AZ 85365.

Documents pertinent to this proposal may be examined online at the project ePlanning website: <https://go.usa.gov/xtGtR> and at the Yuma Field Office.

FOR FURTHER INFORMATION CONTACT:

Erica Stewart, Project Manager, telephone: (928) 317–3295; email: estewart@blm.gov; or at the Yuma Field Office. Individuals in the United States who are deaf, blind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Ms. Stewart. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Purpose and Need for the Proposed Action

The BLM's purpose and need for action is to respond to the Applicant's application under Title V of FLPMA (43 U.S.C 1761(a)(4)) for a right-of-way (ROW) grant for Jove Solar.

Preliminary Proposed Action and Alternatives

The Proposed Action is to construct, operate, maintain, and decommission a solar PV facility and battery storage system on 3,495 acres of BLM-administered land in La Paz County, Arizona. The Jove Solar proposal includes PV modules, battery energy storage facilities, substations, electrical collector and connection lines, switch yards, monitoring and maintenance facilities, access roads, and temporary use areas. The Project may have a generating capacity of up to 600 megawatt alternating current (MWac) net capacity. The Project would connect into the authorized Ten West Link 500-kilovolt transmission line.

The Project is considering alternative PV module designs that would trade longer rows with a shorter height of single panel modules for shorter rows of taller dual panel modules.

The EIS will also evaluate the No Action Alternative. Under the No Action Alternative, the BLM would deny the application and the lands would remain open to multiple use and sustained yield as provided for in the Yuma Field Office Resource Management Plan (BLM 2008). The BLM welcomes comments on all preliminary alternatives as well as suggestions for additional alternatives.

Summary of Expected Impacts

Anticipated impacts on BLM-managed lands include approximately 3,495 acres of ground disturbance for the solar facility, battery storage systems, transmission lines, project buildings, construction laydown areas, and access roads. Impacts may include reduction in authorized grazing; vegetation removal; recreation, access, and land use changes; wildlife and migratory bird impacts including habitat loss and potential direct mortalities during construction; visual impacts including glint and glare and an increase in nighttime brightness; potential impacts to cultural resources and Native American concerns; socioeconomic impacts—both positive and adverse. Known resources to be addressed in the analysis include, but are not limited to: air quality, visual resources, environmental justice, social and economic values, land uses, Native American religious concerns, recreation, range, cultural, wildlife, migratory birds, threatened, endangered and sensitive species, soils, invasive species, and paleontology. The impact analysis will also consider the cumulative impacts to natural and cultural resources from reasonably foreseeable projects in the area.

Anticipated Permits and Authorizations

In addition to the requested ROW grant, other Federal, State, and local authorizations will be required for Jove Solar. These may include authorizations determined through consultation under the Endangered Species Act (ESA) (16 U.S.C. 1536), Clean Water Act (CWA) (33 U.S.C. 1251), and other laws and regulations determined to be applicable to Jove Solar.

Schedule for the Decision-Making Process

The BLM will provide additional opportunities for public participation consistent with the NEPA process, including a 45-day comment period on
