

on or before January 28, 2004, to be assured of consideration.

ADDRESSES: Comments should be sent to: Office of Information and Regulatory Affairs, Office of Management and Budget, Attn: Mr. Jonathan Womer, Desk Officer for NARA, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on October 1, 2003 (68 FR 56651 and 56652). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Applicant Background Survey.
OMB number: 3095-0045.

Agency form number: NA Form 3035.

Type of review: Regular.

Affected public: Applicants for NARA jobs.

Estimated number of respondents: 2,593.

Estimated time per response: 5 minutes.

Frequency of response: On occasion (when an individual applies for a job at NARA).

Estimated total annual burden hours: 216 hours.

Abstract: A diverse workforce enhances our agency by ensuring that we can draw on the widest possible variety of viewpoints and experiences to improve the planning and actions we undertake to achieve our mission and goals. By promoting and valuing

workforce diversity, we create a work setting where these varied experiences contribute to a more efficient and dynamic organization and employees can develop to their full potential. To achieve these ends and in accordance with our Strategic Plan, we constantly work to improve our performance in hiring and promoting people in underrepresented groups.

This form is used to obtain source of recruitment, ethnicity, race, and disability data on job applicants to determine if the recruitment is effectively reaching all aspects of the relevant labor pool and to determine if there are proportionate acceptance rates at various stages of the recruitment process. Use of this form allows us to objectively determine the barriers to recruitment and selection that affect underrepresented groups. There is no source of this information other than directly from applicants.

Response is optional. The information is used for evaluating recruitment only and plays no part in the selection of who is hired. The information is not provided to selecting officials and plays no part in the selection of individuals. Instead, it is used in summary form to determine trends over many selections within a given occupation or organizational area. The information is treated in a very confidential manner. No information from the form is entered into the personnel file of the individual selected and all the forms are destroyed after the conclusion of the selection process.

The format of the questions on ethnicity and race are compliant with OMB requirements and comparable to those used by other Federal agencies. This form is a further simplification and update of a similar DOI applicant background survey used by NARA for many years.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency proposes to request

extension of a currently approved information collection, NATF Form 36, Microfilm Publication Order Form, used by customers/researchers for ordering roll(s) or microfiche of a microfilm publication. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be received on or before February 27, 2004, to be assured of consideration.

ADDRESSES: Comments should be sent to: Paperwork Reduction Act Comments (NHP), Room 4400, National Archives and Records Administration, 8601 Adelphi Rd, College Park, MD 20740-6001; or faxed to 301-837-3213; or electronically mailed to tamee.fechhelm@nara.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694, or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Public Law 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. The comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways, including the use of information technology, to minimize the burden of the collection of information on respondents. The comments that are submitted will be summarized and included in the NARA request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Microfilm Publication Order Form.

OMB number: 3095-0046.

Agency form number: NATF Form 36.

Type of review: Regular.

Affected public: Business or for-profit, nonprofit organizations and institutions, federal, state and local government agencies, and individuals or households.

Estimated number of respondents: 5,200.

Estimated time per response: 10 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 867 hours.

Abstract: The information collection is prescribed by 36 CFR 1254.72. The collection is prepared by researchers who cannot visit the appropriate NARA research room or who request copies of records as a result of visiting a research room. NARA offers limited provisions to obtain copies of records by mail and requires requests to be made on prescribed forms for certain bodies of records. The National Archives Trust Fund (NATF) Form 36 (11/03), Microfilm Publication Order Form, is used by customers/researchers for ordering a roll, rolls, or a microfiche of a microfilm publication.

NUCLEAR REGULATORY COMMISSION

[Docket No.: 40-8989; SMC-1559]

Envirocare of Utah, Inc.; Order Modifying Exemption From Requirements Relative to Possession of Special Nuclear Material

Envirocare of Utah, Inc., (Envirocare) operates a low-level waste (LLW) disposal facility in Clive, Utah. This facility is licensed by the State of Utah, an Agreement State. Envirocare is also licensed by Utah to dispose of mixed radioactive and hazardous wastes. In addition, Envirocare has a U.S. Nuclear Regulatory Commission (NRC) license to dispose of byproduct material as defined in 10 CFR part 40.

Section 70.3 of 10 CFR part 70 requires persons who own, acquire, deliver, receive, possess, use, or transfer special nuclear material (SNM) to obtain a license pursuant to the requirements in 10 CFR part 70. The licensing requirements in 10 CFR part 70 apply to persons in Agreement States possessing greater than critical mass quantities as defined in 10 CFR 150.11.

Pursuant to 10 CFR 70.14, “the Commission may. * * * grant such exemptions from the requirements of the regulations in this part as it determines are authorized by law and will not endanger life or property or the common defense and security and are otherwise in the public interest.”

On May 24, 1999, the NRC transmitted an Order to Envirocare of Utah, Inc. The Order was published in the **Federal Register** on May 21, 1999 (64 FR 27826). The Order exempted Envirocare from certain NRC regulations and permitted Envirocare, under specified conditions, to possess waste containing SNM in greater quantities than specified in 10 CFR part 150, at Envirocare’s LLW disposal facility located in Clive, Utah, without obtaining an NRC license pursuant to 10 CFR part 70. The methodology used to establish these limits is discussed in the 1999 Safety Evaluation Report (SER) that supported the 1999 Order.

On January 30, 2003, the NRC revised the Order to (1) Include stabilization of liquid waste streams containing SNM; (2) include the thermal desorption process; (3) change the homogenous contiguous mass limit from 145 kg to 600 kg; (4) change the language and SNM limit associated with footnotes “c” and “d” of Condition 1 to reflect all materials in Conditions 2 and 3; and (5) omit the confirmatory testing requirements for debris waste. The revised Order was published in the **Federal Register** on February 13, 2003 (68 FR 7399).

Envirocare, in a letter dated July 8, 2003, proposed that NRC amend the 2003 Order to: (1) Include additional SNM concentration limits to Condition 1 of the Order, including limits for SNM with and without magnesium oxide and limits for additional enrichments of uranium-235; (2) revise the limits in Condition 1 to be in units of gram of SNM per gram of waste rather than the current units of pCi of SNM per gram of waste; and (3) increase the limits of plutonium isotopes and uranium-233 to allow for greater flexibility in accepting liquid SNM waste. In addition, Envirocare has requested an evaluation of three new waste treatment technologies. The NRC is evaluating Envirocare’s request in two phases. This
