Abstract: This supporting statement is for the Information Collection Request (ICR) renewal for the Clean School Bus (CSB) Rebates Program. The CSB Rebates Program currently collects information under the existing Diesel Emissions Reduction Act (DERA) and Clean School Bus (CSB) Rebate Program ICR (OMB Control Number 2060–0686) to ensure its successful administration and management of those programs. Additionally, an emergency ICR (EPA ICR No. 2780.01, OMB Control No. 2060–0750) was approved by OMB in September 2023 that included supplementary data necessary to adequately review and administer the CSB Rebate Program. This ICR renewal consolidates all components of the CSB Rebate Program collection.

EPA uses approved procedures and forms to collect necessary information to operate the CSB Rebate Program and has been providing these rebates since 2022. For each rebate program, EPA utilizes three online forms for the three phases of the rebate lifecycle: (1) Application Form for eligible entities to apply to a new rebate program, (2) Payment Request Form for selectees to submit order documentation and receive funds, and (3) Close Out Form for selectees to document completion of the rebate-eligible activity. In Fall 2023, EPA launched the 2023 CSB Rebate Application for applicants, and the 2022 CSB Rebate Close Out Form for existing 2022 program participants; EPA is currently preparing to launch the 2023 CSB Rebate Payment Request Form in early spring of 2024. EPA will subsequently launch the 2023 CSB Rebate Close Out Form, as well as each rebate form for any future rebate programs (e.g., 2024 CSB Rebate Program). The data collected in these forms are needed to operate the rebate program as authorized by Congress under the CSB statute.

School buses collectively travel over four billion miles each year, providing safe transportation to and from school for more than 25 million American

children every day. The CSB Rebate Program funds the replacement of existing school buses with cleaner buses, the operation of which result in better air quality throughout the communities in which they operate.

Form Numbers: 5900–261, CSB Application; 5900–645 CSB Payment Request Form; 5900–646 CSB Close out Form

Respondents/affected entities: Those interested in applying for a rebate under EPA's CSB Program and include but are not limited to the following NAICS (North American Industry Classification System) codes: 484 Truck Transportation; 485 Transit and Ground Passenger Transportation; 4854 School and Employee Bus Transportation; 61111 Elementary and Secondary Schools; 61131 Colleges, Universities, and Professional Schools; 9211 Executive, Legislative, and Other Government Support; and 9221 Justice, Public Order, and Safety Activities.

Respondent's obligation to respond: Mandatory for CSB rebate recipients.

Estimated number of respondents: 2,400 (total).

Frequency of response: Once per year.

Total estimated burden: 19,763 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Changes in the estimates: There is a decrease of 4,921 hours in the total estimated respondent burden compared with the combined burden of 24,684 hours currently approved by OMB under ICRs 2461.05 and 2780.01. These changes are due primarily to decreases in the respondent count for the Payment Request Form and Close Out Form. Those reductions are offset by increases in EPA's estimates for respondents' time burden for the completion of forms. Additionally, changes in technical labor requirements and BLS wage listings have increased the total cost of burden.

Abstract: EPA relies on scientific information. Participatory science and crowdsourcing techniques allow the Agency to collect qualitative and quantitative data that might help inform scientific research, assessments, or environmental screening; validate environmental models or tools; or enhance the quantity and quality of data collected across the country's diverse communities and ecosystems to support the Agency's mission. Information gathered under this generic clearance will be used by the Agency to support the activities listed above and might provide unprecedented avenues for conducting breakthrough research. Collections under this generic ICR will be from participants who actively seek to participate on their own initiative through an open and transparent process (the Agency does not select participants or require participation); the collections will be low-burden for participants; collections will be low-cost for both the participants and the Federal Government; and data will be available to support the scientific research (including assessments, environmental screening, tools, models, etc.) of the Agency, States, Tribal or local entities where data collection occurs. EPA may, by virtue of collaborating with non-Federal entities, sponsor the collection of this type of information in connection with participatory science projects. When applicable, all such collections will comply with Agency policies and regulations related to human subjects research and will follow the established approval paths through EPA's Human Subjects Research Review Official. Finally, personally identifiable information (PII) will only be collected when necessary and in accordance with applicable Federal procedures and policies. If a new collection is not within the parameters of this generic ICR, the Agency will submit a separate

information collection request to OMB for approval.

Form Numbers: None.

Respondents/affected entities: Participants/respondents will be individuals, not specific entities.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 17,500 (total).

Frequency of response: The frequency of responses will range from once to on occasion.

Total estimated burden: 389,083 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$19,053,132 (per year), includes \$525,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change of hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The dollar figures have been updated to reflect current wages.
