

information collection request has been forwarded to OMB.

A Federal Register notice with a 60-day comment period soliciting comments on the information collection was published on February 1, 2019 (84 FR 1270). There were no comments received.

Title: Fatality Analysis Reporting System.

OMB Control Number: 2127-0006.

Type of Request: Extension without change of a previously approved information collection.

Type of Review: Regular.

Affected Public: State Governments.

Abstract: Under both the Highway Safety Act of 1966 and the National Traffic and Motor Vehicle Safety Act of 1966, as amended, the National Highway Traffic Safety Administration (NHTSA) has the responsibility to collect accident data that support the establishment and enforcement of motor vehicle regulations and highway safety programs. These regulations and programs are developed to reduce the severity of injury and the property damage associated with motor vehicle accidents. The Fatality Analysis Reporting System (FARS) is a major system that acquires national fatality information directly from existing State files and documents. The total user population includes Federal and State agencies and the private sector.

The OMB approval for the survey is scheduled to expire on April 30, 2019. NHTSA seeks an extension of this approval to obtain this crash data vital to FARS' function.

Estimated Total Annual Burden Hours: 104,244 hours.

There are 52 State "respondents" reporting on approximately 34,748 fatal crash cases per year. The State employee (or employees depending on the number of fatal crashes per year occurring in the State) acquires and codes the required information as fatal crashes occur. Approximately 3.00 hours per case are necessary to complete the FARS forms. This results in an estimated annual burden of 104,244 hours.

Number of Respondents: 52.

FARS data is collected from the State governments from the 50 States, DC, and Puerto Rico.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for the Department's performance; (b) the accuracy of the estimated burden; (c) ways for the Department to enhance the quality, utility and clarity of the information collection; and (d) ways

that the burden could be minimized without reducing the quality of the collected information.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.95.

Cem Hatipoglu,

Acting Associate Administrator for the National Center for Statistics and Analysis.
