[Project No. 8377–030]

Isabella Partners; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Isabella Partners' application for a capacity amendment of the Isabella Hydroelectric Project No. 8377 and have prepared an Environmental Assessment (EA) for the project.¹ The licensee proposes to construct and operate a new 5-megawatt (MW) generating unit which would be located in a new 40-foot-by-45-foot concrete structure adjacent to the existing powerhouse, resulting in an increase of the project's total installed capacity from 12.8 MW to 17.8 MW. The Isabella Hydroelectric Project located on the Kern River in Kern County, California at the U.S. Army Corps of Engineers (Corps)' Isabella Dam on lands administered by the Corps.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed new generating unit, alternatives to the proposed action, and concludes that the proposed capacity amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <https://www.ferc.gov> using the "elibrary" link. Enter the docket number (P–8377–030) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

All comments must be filed by June 20, 2025.

The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at <https://www.ferc.gov/docs-filing/>

[ecomment.asp](https://www.ferc.gov/docs-filing/ecomment.asp). Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <https://www.ferc.gov/docs-filing/ecomment.asp>. For assistance, please contact FERC Online Support. In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket numbers P–8377–030.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, Tribal members, and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

For further information, contact Zeena Aljibury at (202)–502–6065 or zeena.aljibury@ferc.gov.

Dated: May 21, 2025.

Debbie-Anne A. Reese,
Secretary.

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Project No. 3409–032]

Boyne USA, Inc.; Notice of Meeting

a. *Project Name and Number:* Boyne River Hydroelectric Project No. 3409–032.

b. *Applicant:* Boyne USA, Inc.

c. *Date and Time of Meeting:* Thursday, June 5, 2025 from 10:00 a.m. to 11:00 a.m. Eastern Time.

d. *FERC Contact:* Michael Davis at (202) 502–8339 or michael.davis@ferc.gov.

e. *Purpose of Meeting:* Commission staff will hold a meeting with representatives from the Little Traverse Bay Bands of Odawa Indians to discuss fisheries, erosion, and water quality in

regards to the Boyne River Hydroelectric Project relicensing. The meeting will be held virtually via Microsoft Teams.

f. Intervenor in the referenced proceeding may attend the meeting as observers; however, participation will be limited to representatives from the Little Traverse Bay Bands of Odawa Indians and Commission staff. If meeting attendees decide to disclose information about a specific location which could create a risk or harm to an archaeological site or Native American cultural resource, attendees other than Little Traverse Bay Bands of Odawa Indians and Commission staff will be excused for that portion of the meeting.

g. A summary of the meeting will be placed in the public record of this proceeding. As appropriate, the meeting summary will include both a public, redacted version that excludes any information about the specific location of the archeological site or Native American cultural resource and an unredacted privileged version. Intervenor planning to attend the meeting should notify Michael Davis at (202) 502–8339 or michael.davis@ferc.gov by Tuesday, June 3, 2025 to RSVP and to receive specific instructions for logging in to the meeting.

Dated: May 21, 2025.

Debbie-Anne A. Reese,
Secretary.

[Project No. 2611–091]

Hydro Kennebec, LLC; Notice of Reasonable Period of Time for Water Quality Certification Application

On May 13, 2025, Hydro Kennebec, LLC submitted to the Federal Energy Regulatory Commission (Commission) documentation from the Maine Department of Environmental Protection (Maine DEP) that it received a request for a Clean Water Act section 401(a)(1) water quality certification as defined in 40 CFR 121.5, from Hydro Kennebec, LLC, in conjunction with the above captioned project on May 8, 2025. Pursuant to the Commission's regulations,¹ we hereby notify Maine DEP of the following.

Date of Receipt of the Certification Request: May 8, 2025.

¹ 18 CFR 4.201(e).

¹ The unique identification number for documents relating to this environmental review is EAXX–019–20–000–1725634364.

Reasonable Period of Time To Act on the Certification Request: One year, May 8, 2026.

If Maine DEP fails or refuses to act on the water quality certification request on or before the above date, then the certifying authority is deemed waived pursuant to section 401(a)(41) of the Clean Water Act, 33 U.S.C. 1341(a)(1).

Dated: May 21, 2025.

Debbie-Anne A. Reese,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP25–60–000]

Mountain Valley Pipeline, LLC; Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Mountain Valley Pipeline Southgate Amendment Project, and Notice of Public Scoping Session

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document that will discuss the environmental impacts of the Mountain Valley Pipeline (MVP) Southgate Amendment Project (Amendment Project) involving construction and operation of facilities by Mountain Valley Pipeline, LLC (MVP) in Pittsylvania County, Virginia and Rockingham County, North Carolina. The Commission will use this environmental document in its decision-making process to determine whether the Amendment Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the Amendment Project. As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result from its action whenever it considers the issuance of Certificate of Public Convenience and Necessity. This gathering of public input is referred to as “scoping.” The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. Additional information about the Commission's NEPA process is described below in the NEPA Process and Environmental Document section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the environmental document. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on June 21, 2025. Comments may be submitted in written or oral form. Further details on how to submit comments are provided in the Public Participation section of this notice.

Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the environmental document. Commission staff will consider all written or oral comments during the preparation of the environmental document.

If you submitted comments on this Amendment Project to the Commission before the opening of this docket on February 3, 2025, you will need to file those comments in Docket No. CP25–60–000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this Amendment Project. State and local government representatives should notify their constituents of this proposed Amendment Project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable easement agreement. You are not required to enter into an agreement. However, if the Commission approves the Amendment Project, the Natural Gas Act conveys the right of eminent domain to the company. Therefore, if you and the company do not reach an easement agreement, the pipeline company could initiate condemnation proceedings in court. In such instances, compensation would be determined by a judge in accordance with State law. The Commission does not subsequently grant, exercise, or oversee the exercise of that eminent domain authority. The courts have exclusive authority to handle eminent domain cases; the Commission has no jurisdiction over these matters.

MVP provided landowners with a fact sheet prepared by the FERC entitled “An Interstate Natural Gas Facility On My Land? What Do I Need To Know?” which addresses typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. This fact sheet along with other landowner topics of interest are available for viewing on the FERC website (www.ferc.gov) under the Natural Gas, Landowner Topics link.
