

by NMFS. NMFS will not issue a CQ permit until NMFS receives a complete application for CQ issuance and confirmation of the full payment of any cost recovery fee liability.

Standard Price

For purposes of calculating cost recovery fees, NMFS uses a standard ex-vessel price (standard price) for Pacific Cod. A standard price is determined using information on landings purchased (volume) and ex-vessel value paid (value). NMFS annually receives information used to calculate the Pacific cod standard price in the existing Bering Sea and Aleutian Island (BSAI) Pacific cod Ex-vessel Volume and Value Report, which is submitted in early November of each year. NMFS uses this existing data source to calculate standard prices and thus determine the annual PCTC Program fishery value, which, along with the direct program costs, is used to calculate the annual PCTC Program cost recovery fee percentage. The standard prices are described in U.S. dollars per pound for landings made during the previous year. NMFS published the standard price of 0.42 cents per pound for Pacific cod for 2024 in the **Federal Register** on November 24, 2023 (88 FR 82336).

Each landing made under the PCTC Program is multiplied by the standard price to arrive at an ex-vessel value for each landing. These values are summed together to arrive at the ex-vessel value of Pacific Cod (fishery value).

Fee Percentage

Annually, NMFS calculates the applicable fee percentage according to the factors and methods described at § 679.135 for the PCTC Program. NMFS used the standard price of 0.42 cents to calculate the fee percentage applied to landings made in 2024. NMFS determined the fee percentage that applies to landings made in the A and B seasons, which extend from January 20 to June 10, 2024, by dividing the total costs directly related to the management, data collection, and enforcement of the program (direct program costs) by the value of the catch subject to the cost recovery fee.

NMFS captures direct PCTC program costs through an established accounting system that allows NMFS staff to track labor, travel, contracts, rent, and procurement costs. For 2024, the direct program costs for the PCTC Program were tracked from October 1, 2023 to June 30, 2024. NMFS began tracking PCTC Program management costs after the effective date of the final rule implementing the PCTC Program (88 FR 53704, August 8, 2023). NMFS will

publish an annual report on the NMFS Alaska Region website in the first quarter of 2025 that summarizes direct program costs for the PCTC Program.

Using the fee percentage formula described generally above, the estimated percentage of direct program costs to fishery value for the 2024 calendar year is 1.92 percent for the PCTC Program. For 2024, NMFS applied the fee percentage to each PCTC landing that was debited from a CQ allocation between January 20 and June 10 to calculate the fee liability for each cooperative. A PCTC cooperative's 2024 fee payments must be submitted to NMFS on or before August 31, 2024. Payment must be made in accordance with the payment methods set forth in § 679.135(a)(3).
