

members of the academic community publish articles and reports based on NLSY97 data for the DOL and other funding agencies. The survey design provides data gathered from the same respondents over time to form the only data set that contains this type of information for this important population group. Without the collection of these data, an accurate longitudinal data set could not be provided to researchers and policy makers, thus adversely affecting the DOL's ability to perform its policy and report-making activities.

I. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

The Bureau of Labor Statistics seeks approval to conduct rounds five, six, and seven of annual interviews of the NLSY97. Respondents to the NLSY97 will undergo an interview of approximately one hour during which they will answer questions about schooling and labor market experiences, family relationships, and community background. For youths under age 18 who still live with their parents, one of the parents will be asked to complete a one-page questionnaire, called the Household Income Update, that collects

information on the income in the previous calendar year of the respondent's parent and that parent's current spouse or partner. In addition, high school transcripts will be collected for NLSY97 respondents who no longer are attending high school and who provide written permission to contact their schools. The high schools will be asked to provide the youth's transcript, along with course descriptions and information about the school's grading scale. Finally, during the fielding period for the main youth interviews, about 900 respondents will be asked to participate in a brief second interview to ascertain whether the initial interview took place as the interviewer reported and to assess the data quality of selected questionnaire items.

Type of Review: Revision of a currently approved collection.
Agency: Bureau of Labor Statistics.
Title: National Longitudinal Survey of Youth 1997.
OMB Number: 1220-0157.
Affected Public: Individuals or households and not-for-profit institutions (public and private high schools).

Form	Total respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden (hours)
Transcript Request and School Information	4,441	Once	4,441	30	2,221
Youth Interview	8,436	Annually	8,436	60	8,436
Youth Validation Reinterview	900	Annually	900	6	90
Household Income Update Form	3,374	Annually	3,374	4	225
Totals	16,251		17,151		10,972

The difference between the total number of respondents and the total number of responses reflects the fact that 900 respondents will be interviewed twice, once in the main survey and a second time in the validation reinterview.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 5th day of April 2001.

W. Stuart Rust, Jr.,

Chief, Division of Management Systems, Bureau of Labor Statistics.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the

destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before May 29, 2001. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: To request a copy of any records schedule identified in this notice, write to the Life Cycle Management Division (NWML), National Archives and Records Administration (NARA), 8601 Adelphi Road, College Park, MD 20740-6001. Requests also may be transmitted by FAX to 301-713-6852 or by e-mail to records.mgt@arch2.nara.gov. Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT:

Marie Allen, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 713-7110. E-mail: records.mgt@arch2.nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records

that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-20]

Notice of Issuance of Amendment to Materials License SNM-2508; Department of Energy TMI-2 Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has issued Amendment 1 to Materials License No. SNM-2508 held by the U.S. Department of Energy (DOE) for the receipt, possession, storage and transfer of spent fuel in an independent spent fuel storage installation (ISFSI) located at the Idaho National Engineering and Environmental Laboratory (INEEL), within the Idaho Nuclear Technology and Engineering Center (INTEC) site in

Scoville, Idaho. The amendment is effective as of the date of issuance.

By application dated March 26, 2001, DOE requested an amendment to its ISFSI license to correctly reflect the number of fuel and filter canisters that could be stored at the ISFSI. The correct number that can be stored is 267 (rather than 265) fuel, and 62 (rather than 67) filter, canisters.

This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that, pursuant to 10 CFR 51.22(c)(11), an environmental assessment need not be prepared in connection with issuance of the amendment.

Documents related to this action are available for public inspection at the Commission's Public Document Room located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852-2738, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 4th day of April 2001.

For the Nuclear Regulatory Commission.

E. William Brach,

*Director, Spent Fuel Project Office, Office of
Nuclear Material Safety and Safeguards.*
