

Thus, the Commission expects the aggregate cost to the nine respondents over the three-year period will be \$18,000, or \$6,000 per year when annualized over three years. The Commission expects the total labor cost per respondent will be approximately \$666.67 when annualized over three years.

b. Representations Regarding U.S.-Person Status

Pursuant to Rule 3a71-3(a)(4)(iv), persons may rely on representations from a counterparty that the counterparty does not satisfy the criteria defining U.S. person set forth in Rule 3a71-3(a)(4)(i), unless such person knows or has reason to know that the representation is not accurate. Commission staff has estimated, based on its understanding of OTC derivatives markets, including the domiciles of counterparties that are active in the market, that approximately 3,000 entities will provide representations that they do not meet the criteria necessary to be U.S. persons.

As with representations regarding whether a transaction is conducted through a foreign branch, the Commission estimates the maximum total third-party disclosure burden associated with developing new representations will be, for each counterparty that will make such representations, no more than five hours and up to \$2,000 for the services of outside professionals. Across the 3,000 respondents, this aggregates to a maximum of approximately 15,000 hours, or 5,000 hours per year when annualized over three years. This estimate assumes little or no reliance on standardized disclosure language.

The Commission expects that the majority of the burden associated with the disclosure requirements will be experienced during the first year as language is developed and trading documentation is amended. After the new representations are developed and incorporated into trading documentation, the Commission believes that the annual third-party disclosure burden associated with this requirement will be no more than approximately 10 hours per counterparty for verifying representations with existing counterparties and onboarding new counterparties. Across the 3,000 respondents, this aggregates to a maximum of approximately 30,000 hours.

The Commission believes that some of the entities that comply with Rule 3a71-3 will seek outside counsel to help them develop new representations. For PRA

purposes, the Commission assumes that all 3,000 respondents will seek outside legal for the first year only and will, on average, consult with outside counsel for a cost of up to \$2,000. The Commission also assumes that none of those 3,000 respondents will seek outside legal services for year two or year three. Thus, the Commission expects that the aggregate cost over those 3,000 respondents over the three-year period will be \$6 million, or \$2 million per year when annualized over three years. The Commission expects the total labor cost per respondent will be approximately \$666.67 when annualized over three years.
