Federal Register

Vol. 90, No. 25

Friday, February 7, 2025

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-4-2025]

Foreign-Trade Zone (FTZ) 18, Notification of Proposed Production Activity; Halo Industries, Inc.; (Semiconductor Wafers); Santa Clara, California

The City of San Jose Office of Economic Development, grantee of FTZ 18, submitted a notification of proposed production activity to the FTZ Board (the Board) on behalf of Halo Industries, Inc. (Halo) for Halo's facility in Santa Clara, California within FTZ 18. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on January 28, 2025.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz.

The proposed finished products include: fully-finished and production-ready semiconductor wafers (duty-free).

The proposed foreign-status materials/components include: crude silicon carbide ingots and unfinished or partially processed semiconductor wafers (duty-free). The request indicates that certain materials/components are subject to duties under section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is March 19, 2025.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Kolade Osho at Kolade.Osho@trade.gov.

Dated: February 4, 2025.

Elizabeth Whiteman,

Executive Secretary.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-5-2025]

Foreign-Trade Zone (FTZ) 205, Notification of Proposed Production Activity; Rincon Power, LLC; (Contactors, Relays and Switches); Carpinteria, California

Rincon Power, LLC submitted a notification of proposed production activity to the FTZ Board (the Board) for its facility in Carpinteria, California within FTZ 205. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on January 30, 2025.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz.

The proposed finished products include: contactors and relays for switching power at voltages exceeding 1,000 volts; contactors and relays for switching power at voltages not exceeding 1,000 volts; battery disconnect rotary isolation switches for power at voltages exceeding 1,000 volts; current sensors with fluxgate; hardware kits including: nuts, washers, lock washers for relays contactors and rotary

isolation switches; wire harnesses for relays, contactors and rotary isolation switches; mounting brackets for relays, contactors and rotary isolation switches; and, custom formed gaskets and grommet seals, for contactors, relays and rotary isolation switches (duty rate ranges from duty-free to 2.7%).

The proposed foreign-status materials/components include: custom formed o-rings, gaskets and grommet seals (made of synthetic rubber, silicone rubber, or silicone foam rubber); gasket seals (made of polyimide with acrylic adhesive); gasket seals, cut or formed from polyimide or polytetrafluoroethylene sheets; custom formed ceramic magnets, Neodymium magnets, electromagnetic components including, coils, bobbins, flux tubes, plungers, top cores, bottom cores, outer cores or cans, magnet bridges or holders, and shafts; switch sub-assemblies, for voltages not exceeding 1,000 volts; switch sub-assemblies, for voltages exceeding 1,000 volts; micro switches for auxiliary power; custom formed copper busbars; custom printed circuit board assemblies for use in contactors, relays, or rotary isolation switches; custom plastic molded components in the form of housings including tops, bottoms, bases, caps and covers; custom plastic or ceramic molded components in the form of arc chambers including envelope tops and bottoms, shaft guides or bushings; custom plastic molded components for incorporating auxiliary micro switches including brackets and carriers; custom plastic molded components in the form of connector housings including shells and plugs; custom plastic molded components in the form of handles including bezels, shrouds, caps, covers, and levers; custom formed moveable contact bars of copper, silver tin oxide, tungsten, tellurium, glidcop, or molybdenum; headers, custom formed and brazed isolator subassemblies with ceramic and metal alloy components including glidcop, copper, tellurium, tungsten, silver tin oxide, steel, or kovar; custom formed actuator components in the form of springs, bellows, shafts, slide bearings, auxiliary arms, plunger rods, and spacers; and, custom machined arc chamber isolators of ceramic (duty rate ranges from duty-free to 5.8%). The request indicates that certain materials/ components are subject to duties under section 301 of the Trade Act of 1974

(section 301), depending on the country of origin. The applicable section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is March 19, 2025.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Christopher Wedderburn at Chris.Wedderburn@trade.gov.

Dated: February 4, 2025.

Elizabeth Whiteman,
Executive Secretary.

International Trade Administration

[A-580-895]

Low Melt Polyester Staple Fiber From the Republic of Korea: Final Results of Antidumping Duty Administrative Review; 2022-2023

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that Toray Advanced Materials Korea, Inc. (TAK), the sole producer and exporter subject to this administrative review, made sales of low melt polyester staple fiber (low melt PSF) from the Republic of Korea (Korea) in the United States at less than normal value (NV) during the period of review (POR), August 1, 2022, through July 31, 2023.

DATES: Applicable February 7, 2025.

FOR FURTHER INFORMATION CONTACT: Andrew Hart, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-1058.

SUPPLEMENTARY INFORMATION:

Background

On October 1, 2024, Commerce published in the **Federal Register** the *Preliminary Results of 2022-2023 administrative review of the antidumping duty order*¹ on low melt

PSF from Korea and invited interested parties to comment.² On December 9, 2024, Commerce tolled the deadline to issue the final results in this administrative review by 90 days.³ Accordingly, the deadline for these final results is now April 29, 2025. For a complete description of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.⁴ Commerce conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The merchandise subject to this *Order* is synthetic staple fibers, not carded or combed, specifically bi-component polyester fibers having a polyester fiber component that melts at a lower temperature than the other polyester fiber component (low melt PSF). For a complete description of the scope of the *Order*, see the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by parties in this administrative review are addressed in the Issues and Decision Memorandum and are listed in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Changes Since the Preliminary Results

Based on a review of the record and comments received from interested parties regarding the *Preliminary Results*, and for the reasons explained in the Issues and Decision Memorandum, Commerce made certain changes to the weighted-average dumping margin

calculations for TAK for the final results or review.⁵

Final Results of the Administrative Review

As a result of this review, we determine that the following estimated weighted-average dumping margin exists for the period August 1, 2022, through July 31, 2023.

Producer/exporter	Weighted-average dumping margin (percent)
Toray Advanced Materials Korea, Inc	3.14

Disclosure

Commerce intends to disclose the calculations performed in connection with these final results of review to interested parties within five days after public announcement of the final results or, if there is no public announcement, within five days of the date of publication of the notice of final results in the **Federal Register**, in accordance with 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act, and 19 CFR 351.212(b)(1), Commerce will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for each importer's examined sales and the total entered value of those sales. Where either the respondent's weighted-average dumping margin is zero or *de minimis*, within the meaning of 19 CFR 351.106(c)(1), or an importer-specific rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For entries of subject merchandise during the POR produced by TAK for which it did not know that the merchandise it sold to the intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate established in the less-than-fair-value (LTFV) investigation of 16.27 percent *ad valorem*,⁶ if there is no rate for the
