Proposed Project

Statements in Support of Application of Waiver of Inadmissibility (0920-0006, expiration date 12/31/2011)—

Revision—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 212(a), (1) of the Immigration and Nationality Act states that aliens with specific health related conditions are ineligible for admission into the United States. The Attorney General may waive application of this inadmissibility on health-related grounds if an application for waiver is filed and approved by the U.S. Citizenship and Immigration Services office of the Department of Homeland Security having jurisdiction. CDC uses this application primarily to collect information to establish and maintain records of waiver applicants in order to notify the U.S. Citizenship and Immigration Services when terms, conditions and controls imposed by waiver are not met. CDC is requesting approval from OMB to collect this data for another 3 years.

There are no costs to respondents other than their time.

The U.S. Department of Health and Human Services (HHS) released the Rate Review Grants Cycle I funding opportunity twice; first to States (and the District of Columbia) in June 2010 and then to the territories and the five States that did not apply during the first release, (http://www.hhs.gov/ociio/initiative/final_premium_review_grant_solicitation.pdf). The second release was due to the decision that the territories were subject to provisions of
