Form Number(s): SRD-1.

Type of Request: Regular submission, request for an extension, without change, of a currently approved collection.

Needs and Uses: The Census Bureau conducts the Survey of State Government Research and Development (SGRD) to measure research and development performed and funded by State government agencies in the United States. The Census Bureau conducts the survey on behalf of the National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation.

The National Science Foundation Act of 1950, as amended, includes a statutory charge to "provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies in the Federal Government." This mandate was further codified in the America COMPETES Reauthorization Act of 2010 section 505, which requires NCSES to "collect, acquire, analyze, report, and disseminate . . . statistical data on (A) research and development trends . . ." Under the aegis of these legislative mandates, NCSES has sponsored surveys of research and development (R&D) since 1951, including the SGRD since 2006. The Census Bureau's authorization to undertake this work is found at 13 U.S.C. 8(b) which provides that the Census Bureau "may make special statistical compilations and surveys for departments, agencies, and establishments of the Federal government, the government of the District of Columbia, the government of any possession or area (including political subdivisions thereof) . . . State or local agencies, or other public and private persons and agencies."

The SGRD is the only comprehensive source of State government research and development expenditure data collected
