List of Questions for Commenters

The following list of questions is not exhaustive. However, it is meant to assist members of the public in formulating comments on important issues NRCS is considering as we implement MRBI and NWQI. This list is not intended to restrict the feedback that members of the public may provide:

- (1) How should NRCS improve the effectiveness of MRBI and NWQI when addressing water quality concerns?
- (2) To effectively deliver water quality improvement and protection, MRBI and NWQI require watershed assessments to guide conservation assistance. How should NRCS improve the watershed assessment process to target delivery of conservation assistance achieved through MRBI and NWQI?
- (3) How can NRCS ensure that MRBI and NWQI provide the benefits of water quality conservation to disadvantaged communities and underserved producers?
- (4) Under the Clean Water Act, water quality impairments have been removed from many water bodies in MRBI and NWQI watersheds, and in-stream monitoring in many NWQI watersheds has shown improvements related to agricultural conservation. How should NRCS improve and potentially expand the metrics for the measurement of outcomes targeted and achieved through MRBI and NWQI?

Review of Public Feedback

NRCS will use the public's feedback to improve its program delivery through

MRBI and NWQI. This notice is issued solely for information and program-planning purposes. Public input provided in response to this notice does not bind NRCS to any further actions, including publication of any formal response or agreement to initiate a recommended change. NRCS will consider the feedback and make changes or process improvements at its sole discretion. Finally, comments submitted in response to this notice will not be considered as petitions for rulemaking submitted pursuant to 5 U.S.C. 553(e).

AAQTF Purpose

Section 391 of the Federal Agriculture Improvement and Reform Act of 1996 (Pub. AAQTF advises the Secretary of Agriculture on the role of the Secretary for providing oversight and coordination related to agricultural air quality.

The requirements of the Federal Advisory Committee Act, 5 U.S.C. 10., apply to AAQTF.

AAQTF will:

1. Strengthen vital research efforts related to agricultural air quality;
2. Determine the extent to which agricultural activities contribute to air pollution;
3. Determine cost-effective ways in which the agricultural industry can improve air quality;
4. Coordinate and ensure intergovernmental cooperation on research activities related to agricultural air quality issues to avoid duplication, and ensure data quality and sound interpretation of data; and
5. Advise the Secretary of Agriculture with the information to provide oversight and coordination related to agricultural air quality.
