A. Overview of Information Collection

Title of Information Collection: FHA TOTAL (Technology Open to Approved Lenders) Mortgage Scorecard.

OMB Approval Number: 2502–0556.

Type of Request: Revision.

Form Number: None.

Description of the need for the information and proposed use: The regulation mandating this collection can be found in the Code of Federal Regulations at 24 CFR 203.255(b)(5). This information is necessary to assure that lenders (and automated underwriting system (AUS) vendors) are aware of their obligations regarding use of the TOTAL Mortgage Scorecard and are certifying that they will comply with all pertinent regulations. It also allows FHA to request reports from lenders regarding their use of the scorecard, that they have implemented appropriate quality control procedures for using the scorecard, and provides an appeal mechanism should FHA take an action to terminate a lender's use of the scorecard.

In order to serve its clients better, HUD has made the following non material changes: As part of the FHA Transformation Program, Single Family Housing is moving the TOTAL Scorecard to the Mortgage Industry Standard Maintenance Organization (MISMO) data standards format. The data elements are currently used throughout the industry and are therefore listed as industry standard business practice. The attached document outlines the benefits of converting the data and the mapping phases.

Both FHA Total Scorecard, 2502–0556 and Informed Consumer Choice Notice and Application for FHA Insured Mortgages, 2502–0059 will be affected in the two initial transformation phases and Informed Consumer Choice Notice and Application for FHA Insured Mortgages, 2502–0059 will be affected in the final transformation phase.

MISMO is a not-for-profit subsidiary of the Mortgage Bankers Association (MBA). MISMO's mission is to develop leading technical standards for residential and commercial real estate finance industries that are grounded in an open process to develop, promote and maintain voluntary electronic commerce procedures. The benefits of converting data to the MISMO format include:

- Improving data accuracy and consistency
- Allowing for secure and efficient exchange of information

- Increasing data transparency
- Boosting investor confidence in mortgages

All major lenders and GSEs have already adopted MISMO standards. FHA's transformation to the MISMO data standards will ensure consistency in the delivery of data from the lenders and GSE's.

The data elements that are being mapped to MISMO as part of the FHA Transformation Program, can be categorized under the three following phases; Loan Application, Loan Evaluation, and Loan Closing. The Loan Application and Loan Evaluation phase elements are contained in the 2502–0556 and 2502–0059 OMB data collections. The Loan Closing phase elements are contained in the 2502–0059 OMB data collection.

The first release for the TOTAL Scorecard conversion to MISMO will include all existing TOTAL data fields plus some additional fields that will be utilized by a Risk & Fraud tool that is currently being tested. These additional fields are industry standard and are part of a standard lender's loan application. The data elements in the first release can be categorized under two of the phases mentioned above. The data elements that are currently being collected in the TOTAL Scorecard are part of the Loan Application Phase. The data elements that will be collected through the Risk & Fraud tool are part of the Loan Evaluation Phase.

- Phase Definitions below:
 - Loan Application (Currently collected through the 2502–0556 & 2502–0059 OMB data collections)—Collected by the lenders as part of the application process.

- TOTAL data elements
 - Additional 1003 data elements
 - Credit Report data elements
 - Loan Evaluation (Currently collected through the 2502–0556 & 2502–0059 OMB data collections)—Collected by the lender and used for scoring, loan underwriting and additional risk & fraud evaluation.
 - Risk & Fraud Tool data elements
 - Loan Closing (Currently collected through the 2502–0059 OMB data collection)—Collected by the lender at loan closing and used to evaluate whether a loan is endorsed or not by FHA.
 - Endorsement data elements
 - eCase Binder data elements
- Respondents* (describe): Business or other for-profit.

Estimated Number of Respondents: 12,000.

Estimated Number of Responses: 452.

Frequency of Response: On Occasion.

Average Hours per Response: 464.

Total Estimated Burdens: 908.
