

TBD Public hearing (if necessary).³
F + 180 Final briefs due. (Close of evidentiary record.)

F + 270 Service date of final decision.

F + 300 Effective date of final decision.

The Board invites all interested persons to submit written comments on the proposed procedural schedule. Comments must be filed by April 28, 2025. The proposed schedule is subject to change depending on the comments received or other circumstances.

Additionally, the Board's regulations require notice of the year to be used for the impact analysis required in significant transactions be published in the **Federal Register**. See 49 CFR 1180.4(b)(2)(ii). Applicants indicate that they intend to use 2023 as the base year.⁴ Accordingly, the Board will designate 2023 as the year to be used for the impact analysis.

On March 28, 2025, CSX Transportation, Inc. (CSXT), filed a response to Applicants' revised motion for a proposed procedural schedule. CSXT proposes certain modifications to the proposed procedural schedule, proposes that discovery should commence as of publication of the notice of Applicants' intent to file, and opposes the establishment, at this time, of a closing date for discovery. (CSXT Response 2–9, Mar. 28, 2025.) Additionally, although CSXT states that it does not object to the base year selected by Applicants, it argues that the Board should reject Applicants' supplement if it includes only base year data, without providing information to compare that data to a situation in which Applicants did not control NPBL. (*Id.* at 10–11.) CSXT also argues that it is too early for the Board to determine whether environmental review is required in this case. (*Id.* at 11.) Applicants responded to CSXT's response by letter filed *supra* April 1, 2025.

As noted above, *supra* note 2, the Board declines to propose a schedule that would limit the taking of discovery until the Board publishes a notice accepting the application. To the extent that CSXT's response otherwise relates to the proposed procedural schedule, it

will be addressed following the comment period, along with any other comments the Board may receive on the proposed schedule. CSXT's comments concerning the sufficiency of Applicants' future presentation of data are beyond the scope of this decision, which serves only to notice and solicit comments on the proposed procedural schedule, as required by 49 CFR 1180.4(b)(4)(i). Accordingly, those arguments will be addressed, to the extent necessary, at a later date. The Board will also address environmental review issues in a subsequent decision.

Decided: April 11, 2025.

By the Board, Board Members Fuchs, Hedlund, Primus, and Schultz.

Regena Smith-Bernard,
Clearance Clerk.
