

of its requirements for serving documents containing business proprietary information until further notice.⁷ Parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.⁸

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically via ACCESS. Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those raised in the respective case briefs. If a request for a hearing is made, Commerce intends to hold the hearing at a time and date to be determined. An electronically filed hearing request must be received successfully in its entirety by Commerce's electronic records system, ACCESS, by 5:00 p.m. Eastern Time within 30 days after the date of publication of this notice.⁹

Commerce intends to issue the final results of this administrative review, including the results of its analysis of the issues raised in any written briefs, no later than 120 days after the date of publication of this notice, unless extended, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rates

Upon completion of the final results, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. If the weighted-average dumping margin for YGK/Nagase is not zero or *de minimis* in the final results of this review, we will calculate, for each company, an importer-specific assessment rate on the basis of the ratio of the total amount of dumping calculated for each importer's examined sales and the total entered value of such sales, in accordance with 19 CFR 351.212(b)(1).¹⁰ If any of these

companies' weighted-average dumping margin is zero or *de minimis* in the final results of review, or if an importer-specific assessment rate for one of these companies is zero or *de minimis*, Commerce will instruct CBP to liquidate appropriate entries without regards to antidumping duties.¹¹ For entries of subject merchandise during the POR produced by any of these companies for which it did not know its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries.¹²

Consistent with its recent notice,¹³ Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication). The final results of this administrative review shall be the basis for the assessment of antidumping duties on entries of merchandise under review and for future cash deposits of estimated antidumping duties, where applicable.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for YGK/Nagase and Showa Denko listed above will be equal to the weighted-average dumping margin established in the final results of this administrative review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which they were reviewed; (3) if the exporter is not a firm covered in this review, a prior review, or in the investigation but the producer is, the cash deposit rate will be the rate

established for the most recently completed segment of this proceeding for the producer of the merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be the all-others rate of 53.66 percent, the rate established in the less-than-fair-value investigation.¹⁴ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: June 30, 2021.

Christian Marsh,

Acting Assistant Secretary for Enforcement and Compliance.

SUMMARY: Notice is hereby given that Inwater Research Group, Inc., 4160 NE Hyline Dr., Jensen Beach, FL 34957 (Responsible Party: Michael Bresette) and the NMFS Northeast Fisheries Science Center (NEFSC), 166 Water Street, Woods Hole, MA 02543 (Responsible Party: Jon Hare), have applied in due form for a permit to take green (*Chelonia mydas*), hawksbill (*Eretmochelys imbricata*), Kemp's ridley (*Lepidochelys kempii*), leatherback (*Dermochelys coriacea*), loggerhead (*Caretta caretta*), and unidentified hardshell sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or email comments must be received on or before August 9, 2021.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 25696 or 25716 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include the relevant File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Jordan Rutland, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

File No. 25696: The applicant proposes to study the habitat preference, species abundance, size frequencies, and fibropapillomatosis rates of sea turtles inhabiting inshore lagoons and nearshore reefs between Indian River and Miami-Dade Counties in southeastern Florida. Annually up to 200 green, 25 loggerhead, 10 Kemp's ridley and 10 hawksbill sea turtles would be counted and captured by hand, dip net, or tangle net. Captured turtles would be measured, weighed, temporarily marked, flipper tagged, and passive integrated transponder (PIT)

tagged, photographed, and skin and blood sampled prior to release. In addition, all loggerhead sea turtles would receive a sonic or satellite transmitter and all green sea turtles would undergo gastric lavage prior to release. A subset of greens would be transported to a local facility for imaging and/or receive a transmitter prior to their return to the wild. Another 1,350 green, 100 loggerhead, 75 hawksbill, and 20 Kemp's ridley sea turtles may be pursued during unsuccessful capture attempts annually. The permit would be valid for 10 years.

File No. 25716: The NEFSC proposes to continue studying sea turtles legally bycaught within commercial fisheries operating in the Northwest Atlantic Ocean. The objective is to monitor the take of ESA listed sea turtle species in observed commercial fisheries and to collect data to help estimate total bycatch. Up to 50 loggerhead, 10 Kemp's ridley, 10 green, 20 leatherback, and 20 unidentified sea turtles would be photographed, measured, weighed, flipper tagged and PIT tagged, and skin biopsied prior to release annually. Carcasses, tissues or parts also may be salvaged from dead sea turtles. The permit would be valid for 5 years.

Dated: July 2, 2021.

Julia Marie Harrison,
Chief, Permits and Conservation Division,
Office of Protected Resources, National
Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XB213]

Marine Mammals; File No. 24054

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Terrie Williams, Ph.D., University of California at Santa Cruz, Long Marine Lab, Center for Ocean Health, 115 McAllister Way, Santa Cruz, CA 95060, has applied in due form for a permit to conduct research on captive marine mammals.

DATES: Written, telefaxed, or email comments must be received on or before August 9, 2021.

ADDRESSES: The application and related documents are available for review by

selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 24054 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 24054 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Jennifer Skidmore or Courtney Smith, Ph.D., (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant is requesting a permit to continue research activities to compare the energetic and cardiovascular responses and diving physiology of captive cetaceans and pinnipeds to determine key biological capabilities. A maximum of 4 dolphins (*Tursiops truncatus*), 10 California sea lions (*Zalophus californianus*), and 3 Hawaiian monk seals (*Neomonachus schauinslandi*) would be maintained and participate in the research at Long Marine Laboratory at any given time. Up to 60 bottlenose dolphins from the U.S. Navy, and up to 10 Hawaiian monk seals and 1 non-releasable Cook Inlet beluga whale (*Delphinapterus leucas*) at other permitted facilities may also participate in the research at their respective facilities.

Other species in rehabilitation status may also be added opportunistically and transported to Long Marine Laboratory for research purposes (up to 10 species per year with less than 6 animals onsite at a time). Typical rehabilitation species are bottlenose dolphins, harbor porpoises (*Phocoena phocoena*), Guadalupe fur seals
