

entitled *United States and Louisiana v. Acadia Woods Add. #2 Sewer Co., et al.*, Civil Action No. 6:98–0687.

In its Second Amended Complaint, the United States alleged claims related to violations of the Clean Water Act and applicable discharge permits at sewage treatment plants in Louisiana owned and operated by Johnson Properties, Inc. and its subsidiaries. Subsequently, the sewage treatment plants were sold to Intervening Defendant Total Environmental Solutions, Inc. (“TESI”). The United States, Louisiana, and TESI agreed to the Consent Decree with Respect to TESI (“the Original Consent Decree”) which was entered by the Court on December 21, 2000. In the Original Consent Decree, TESI committed to operate the sewage treatment plants without service interruption and implement compliance measures intended to cause the sewage treatment plants to achieve compliance with the requirements of the CWA and the applicable discharge permits.

The court entered a modification of the Consent Decree on May 18, 2017 (the First Consent Decree Modification) that required TESI to achieve compliance with the requirements of the Clean Water Act and the applicable discharge permits by implementing additional compliance measures. The First Consent Decree Modification also specified procedures and a schedule pursuant to which TESI, after it implemented the additional compliance measures, could request removal of sewage treatment plants from the Consent Decree. Finally, the First Consent Decree Modification revised the stipulated penalty provisions.

The proposed Second Consent Decree Modification provides for the transfer of sewage treatment plants that remain subject to the Consent Decree to Magnolia Water Utility Operating Company, LLC (“Magnolia”) which would be substituted for TESI as Intervening Defendant. The proposed Second Consent Decree Modification would also modify the schedule to provide Magnolia additional time to complete that the work required by the modified Consent Decree, modify some of the injunctive relief requirements for the sewage treatment plants that remain subject to the Consent Decree, and reduce stipulated penalties during the initial six months of Magnolia’s operations.
