

incorporated by the requirements of paragraph (3) of EASA AD 2021–0211, or within 90 days after the effective date of this AD, whichever occurs later.

(5) The provisions specified in paragraphs (4) and (5) of EASA AD 2021–0211 do not apply to this AD.

(6) The “Remarks” section of EASA AD 2021–0211 does not apply to this AD.

(l) New Provisions for Alternative Actions, Intervals, and CDCCLs

After the existing maintenance or inspection program has been revised as required by paragraph (j) of this AD, no alternative actions (e.g., inspections), intervals, and CDCCLs are allowed unless they are approved as specified in the provisions of the “Ref. Publications” section of EASA AD 2021–0211.

(m) Additional FAA AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, Large Aircraft Section, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the Large Aircraft Section, International Validation Branch, send it to the attention of the person identified in paragraph (n)(2) of this AD. Information may be emailed to: 9-AVS-AIR-730-AMOC@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(2) *Contacting the Manufacturer*: For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved by the Manager, Large Aircraft Section, International Validation Branch, FAA; or EASA; or ATR–GIE Avions de Transport Régional’s EASA Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(n) Related Information

(1) For information about EASA AD 2019–0256 and EASA AD 2021–0211, contact EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; telephone +49 221 8999 000; email ADs@easa.europa.eu; internet www.easa.europa.eu. You may find these EASA ADs on the EASA website at <https://ad.easa.europa.eu>. You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195. This material may be found in the AD docket at <https://www.regulations.gov> by searching for and locating Docket No. FAA–2022–0395.

(2) For more information about this AD, contact Shahram Daneshmandi, Aerospace Engineer, Large Aircraft Section, International Validation Branch, FAA, 2200 South 216th St., Des Moines, WA 98198;

telephone 206–231–3220; email shahram.daneshmandi@faa.gov.

Issued on March 31, 2022.

Lance T. Gant,

Director, Compliance & Airworthiness Division, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2022–0333; Airspace Docket No. 22–AGL–6]

RIN 2120–AA66

Proposed Amendment of VOR Federal Airway V–36; Northcentral United States

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend VHF Omnidirectional Range (VOR) Federal airway V–36 by establishing an airway segment within United States (U.S.) airspace over Lake Superior. The new V–36 airway segment would replace a similar segment that was inadvertently removed in a previous rulemaking action supporting NAV CANADA’s Navigational Aid (NAVAID) Modernization Program. This proposed action supports cross border airway connectivity with NAV CANADA’s V–36 airway between the Thunder Bay, ON, Canada, VOR/Distance Measuring Equipment (VOR/DME) and the Wawa, ON, Canada, VOR/DME NAVAIDs.

DATES: Comments must be received on or before May 23, 2022.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12–140, Washington, DC 20590; telephone: (800) 647–5527, or (202) 366–9826. You must identify FAA Docket No. FAA–2022–0333; Airspace Docket No. 22–AGL–6 at the beginning of your comments. You may also submit comments through the internet at <https://www.regulations.gov>.

FAA Order JO 7400.11F, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further information, you can contact the Rules and Regulations Group, Federal Aviation Administration, 800

Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT:

Colby Abbott, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would expand the availability of RNAV in the northcentral United States and improve the efficient flow of air traffic crossing the U.S./Canada border flying through U.S. and Canadian airspace.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA–2022–0333; Airspace Docket No. 22–AGL–6) and be submitted in triplicate to the Docket Management Facility (see **ADDRESSES** section for address and phone number). You may also submit comments through the internet at <https://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to FAA Docket No. FAA–2022–0333; Airspace Docket No. 22–AGL–6.” The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified comment closing

date will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the comment closing date. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Operations Support Group, Central Service Center, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

On November 23, 2021, the FAA published a final rule in the **Federal Register** for Docket No. FAA–2022–0279 (86 FR 66453; November 23, 2021) which inadvertently removed the V–36 airway segment in U.S. airspace between the Thunder Bay, ON, Canada, VOR/DME and the Wawa, ON, Canada, VOR/DME. As a result, the cross border connectivity of V–36 at the two U.S./Canada border crossing points for pilots flying between Thunder Bay, ON, Canada, and Wawa, ON, Canada, in Canadian airspace, then U.S. airspace, and then Canadian airspace again was lost. Today, V–36 extends from the

Thunder Bay VOR/DME to the U.S./Canada border, is gapped through U.S. airspace to the U.S./Canada border located east of the first border intersection, and then continues from the U.S./Canada border to the Wawa VOR/DME, and onward.

This action proposes to modify V–36 to establish the missing V–36 airway segment within U.S. airspace to provide the cross border connectivity necessary between the Thunder Bay VOR/DME and Wawa VOR/DME; thus, making that portion of V–36 whole again.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to modify V–36 by establishing a segment of the airway within U.S. airspace that was inadvertently removed in a previous rulemaking action. Additionally, the modification of V–36 will support cross border connectivity of the airway between the Thunder Bay VOR/DME and Wawa VOR/DME. The proposed airway action is described below.

V–36: V–36 currently extends between the Wawa, ON, Canada, VOR/DME and the Sault Ste. Marie, MI, VOR/DME; and between the Elmira, NY, VOR/DME and the intersection of the La Guardia, NY, VOR/DME 310° and Stillwater, NJ, VOR/DME 043° radials (NEION fix). The airspace within Canada is excluded. The FAA proposes to establish an airway segment within U.S. airspace that connects to NAV CANADA's V–36 airway segments between the Thunder Bay, ON, Canada, VOR/DME and the Wawa, ON, Canada, VOR/DME; providing cross border connectivity for the airway between the two NAVAIDS. As a result, V–36 would extend between the Thunder Bay, ON, Canada, VOR/DME and the Sault Ste. Marie, MI, VOR/DME; and between the Elmira, NY, VOR/DME and the intersection of the La Guardia, NY, VOR/DME 310° and the Stillwater, NJ, VOR/DME 043° radials (NEION fix). The airspace within Canada would continue to be excluded.

The NAVAID radials listed in the VOR Federal airway description below are unchanged and stated in True degrees.

VOR Federal airways are published in paragraph 6010(a) of FAA Order JO 7400.11F, dated August 20, 2021, and effective September 15, 2021, which are incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document would be published subsequently in FAA Order JO 7400.11.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021, is amended as follows:

Paragraph 6010(a) Domestic VOR Federal Airways.

* * * * *

V–36 [Amended]

From Thunder Bay, ON, Canada; Wawa, ON, Canada; to Sault Ste. Marie, MI. From Elmira, NY; INT Elmira 110° and LaGuardia,

NY, 310° radials; to INT LaGuardia 310° and Stillwater, NJ, 043° radials. The airspace within Canada is excluded.

* * * * *

Issued in Washington, DC, on April 1, 2022.

Scott M. Rosenbloom,

Manager, Airspace Rules and Regulations.

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the route structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System (NAS).

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA-2022-0335; Airspace Docket No. 22-AAL-17) and be submitted in triplicate to the Docket Management Facility (see **ADDRESSES** section for address and phone number). You may also submit comments through the internet at <https://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2022-0335; Airspace Docket No. 22-AAL-17." The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified comment closing date will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the comment closing date. A report summarizing each substantive public contact with FAA personnel concerned

with this rulemaking will be filed in the docket.

Availability of NPRM

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The aviation industry/users have indicated a desire for the FAA to transition the Alaskan en route navigation structure away from the dependency on NDBs. The advances in technology have allowed for alternate navigation methods to support decommissioning of high cost ground navigation equipment. The FAA conducted a non-rulemaking study in accordance with FAA Order JO 7400.2, Procedures for Handling Airspace Matters in 2021 on AES due to the ongoing high cost of maintenance and repair. As a result of the study, there were no objections received and the FAA added AES to the schedule to be decommissioned.

Colored Federal airway A-2 navigates from the Beaver Creek, YT, Canada, (YXQ) NDB to the Delta Junction, AK, (DJN) NDB. The decommissioning of AES would render A-2 unusable. This proposal would revoke A-2 in its entirety. The proposed revocation of A-2 is mitigated by United States Area
