

than 16% of the market share.¹⁶ Therefore, no exchange possesses significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁷ The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’ . . .”¹⁸

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-363, OMB Control No. 3235-0413]

**Submission for OMB Review;
Comment Request: Extension: Rule
17Ad-16**

*Upon Written Request, Copies Available
From: Securities and Exchange*

Commission, Office of FOIA Services,
100 F Street NE, Washington, DC
20549-2736

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) ("PRA"), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the existing collection of information provided for in Rule 17Ad-16 (17 CFR 240.17Ad-16) under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule 17Ad-16 requires a registered transfer agent to provide written notice to the appropriate qualified registered securities depository when assuming or terminating transfer agent services on behalf of an issuer or when changing its name or address. In addition, transfer agents that provide such notice shall maintain such notice for a period of at least two years in an easily accessible place. This rule addresses the problem of certificate transfer delays caused by transfer requests that are directed to the wrong transfer agent or the wrong address.

We estimate that the transfer agent industry submits approximately 15,917 Rule 17Ad-16 notices to appropriate qualified registered securities depositories. The staff estimates that the average amount of time necessary to create and submit each notice is approximately 15 minutes per notice. Accordingly, the estimated total industry burden is 3,979.25 hours per year (15 minutes multiplied by 15,917 notices filed annually).

Because the information needed by transfer agents to properly notify the appropriate registered securities depository is readily available to them and the report is simple and straightforward, the cost is relatively minimal. The average internal compliance cost to prepare and send a notice is approximately \$86 (15 minutes at \$344 per hour).¹ This yields an industry-wide internal compliance cost estimate of \$1,368,862 (15,917 notices multiplied by \$86 per notice).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

¹ The estimated hourly wages used in this analysis were derived from reports prepared by the Securities Industry and Financial Markets Association. See Securities Industry and Financial Markets Association, Office Salaries in the Securities Industry—2022 (2022), modified to account for an 1800-hour work year and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead.
