SUPPLEMENTARY INFORMATION:

Title: Survey of Doctorate Recipients.

OMB Control Number: 2145-0020.

Summary of Collection: The National Opinion Research Center (NORC) will conduct this study for NSF in 2006. The National Research Council (NRC) conducted the survey from 1973 through 1995, the National Opinion Research Center (NORC) conducted the 1997 and 2003 surveys, and the Bureau of the Census conducted the 1999 and 2001 surveys. Data collection will begin in April 2006 using a mail questionnaire, computer assisted telephone interviewing and web survey. The survey will be collected in conformance with the Privacy Act of 1974 and the individual's response to the survey is voluntary. The first **Federal Register** notice for this survey was 70 FR 49320, published August 23, 2005, and one comment was received.

Comment: On August 23, 2005, NSF published in the **Federal Register** (70 FR 49320) a 60-day notice of its intent to request reinstatement of this information collection authority from OMB. In that notice, NSF solicited public comments for 60 days ending October 24, 2005. One comment was received from the public notice. The comment came from B. Sachau of Floram Park, NJ, via e-mail on August 23, 2005. Ms. Sachau objected to the information collection. Ms. Sachau had no specific suggestions for altering the data collection plans other than to discontinue them entirely.

Response: NSF responded to Ms. Sachau on November 22, 2005, describing the program, and addressing the frequency and the cost issues raised by Ms. Sachau. NSF believes that because the comment does not pertain to the collection of information on the required forms for which NSF is seeking OMB approval, NSF is proceeding with the clearance request.

Need and Use of the Information: The purpose of this longitudinal study is to provide national estimates of the doctorate level science and engineering workforce and changes in employment, education and demographic characteristics. The study is one of the three components of the Scientists and

Engineers Statistical Data System (SESTAT). NSF uses this information to prepare Congressionally mandated reports such as Science and Engineering Indicators and Women, Minorities and Persons with Disabilities in Science and Engineering. A public release file of collected data, edited to protect respondent confidentiality, will be made available to researchers on CD-ROM and on the World Wide Web.

Description of Respondents:

Individuals.

Number of Respondents: 34,400.

Frequency of Responses: Biennial reporting.

Total Burden Hours: 15,229.

Title: National Survey of Recent College Graduates.

OMB Control Number: 3145-0077.

Summary of Collection: The Bureau of the Census will conduct the study for NSF in the 2006 survey cycle. Mathematics Policy Research conducted the 2003 Survey and Westat Inc. conducted the surveys in 1995, 1997, 1999 and 2001. Data collection will begin in April 2006 using mail questionnaire, computer assisted telephone interviewing and web survey. The survey will be collected in conformance with the Privacy Act of 1974 and the individual responses to the survey are voluntary.
