

level of analysis conducted and resources needed to inspect the BHC and to assign the consolidated R and F ratings should be commensurate with the level of risk posed by the subsidiary depository institution(s) to the federal safety net and the level of risk posed by the BHC to the subsidiary depository institution(s). The report of examination by, and other information obtained from, the functional and primary bank regulators should provide the basis for the consolidated R and F ratings. On-site work, to the extent it involves areas that are the primary responsibility of the functional or primary bank regulator, should be coordinated with and, if possible, conducted by, those regulators. Examination staff should concentrate their independent analysis for the R and F ratings around activities and risk management conducted by the parent company and non-functionally regulated nondepository subsidiaries, as well as around activities and risk management functions that are related to the subsidiary depository institution(s), for example, audit functions for the depository institution(s) and compliance with 23A.

Examination staff will be required to make an independent assessment of the impact of the parent company and nondepository subsidiary(ies) on the subsidiary depository institution(s) in order to assign the I rating.

By order of the Board of Governors of the Federal Reserve System, July 20, 2004.

Jennifer J. Johnson
Secretary of the Board.

Centers for Disease Control and Prevention

[Program Announcement 04283]

Partnering With Schools of Public Health to Enhance Public Health Capacity for HIV Prevention and Care Activities in Vietnam; Notice of Intent to Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program to provide technical and capacity building assistance for HIV prevention and care

in Vietnam. This program should involve training and other capacity building that specifically facilitates the implementation, management, monitoring and evaluation of HIV prevention and care activities, using locally appropriate approaches, and should operate in close collaboration with the CDC Global AIDS Program (GAP) Vietnam Office and its collaborators in Vietnam (e.g., Vietnam Ministry of Health). The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to the Hanoi School of Public Health (HSPH).

The award specifically aims to use existing capacity through Schools of Public Health to aid in providing Vietnam governmental agencies additional capacity/training in public health management, information-technology, monitoring and evaluation, and other surveillance activities. Currently, the HSPH is the single school of public health in Vietnam and thus the only appropriate and qualified organization to conduct this specific set of activities supportive of the CDC/GAP. In addition,

(1) The HSPH is uniquely positioned, in terms of legal authority and credibility among Vietnamese health institutions, to provide technical and capacity building assistance in the areas of public health informatics and sustainable management development for public health programs.

(2) The HSPH already has established mechanisms to access public health informatics and sustainable management development information, enabling it to immediately become engaged in the activities listed in this announcement.

(3) The purpose of this announcement is to build upon the existing framework of health information and activities that the HSPH itself has collected or initiated.

(4) The HSPH is organizationally within the MOH and can effectively coordinate and implement HIV prevention and care activities supported by MOH and its other agencies. Although other Vietnam government ministries are involved in HIV prevention and care, currently most activities occur out of MOH.

Cost Sharing or Matching

Matching funds are not required for this program.
