

and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available through <http://www.regulations.gov>. You may use the <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number.

It is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at <http://www.regulations.gov> without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the EPA Docket Center.

B. How and To Whom Do I Submit Comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment and with any disk or CD ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your

comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <http://www.regulations.gov> Web site to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through <http://www.regulations.gov>, your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

Background: Established by statute, the Council (42 U.S.C 7612), the CASAC (42 U.S.C. 7409) and SAB (42 U.S.C. 4365) are EPA's chartered Federal Advisory Committees that provide independent scientific and technical peer review, consultation, advice and recommendations directly to the EPA Administrator on a wide variety of EPA science activities. As Federal Advisory Committees, the Council, CASAC, and SAB conduct business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. C) and related regulations. Generally, Council, CASAC and SAB meetings are announced in the **Federal Register**, conducted in public view, and provide opportunities for public input during deliberations. Additional information about these Federal Advisory Committees may be found at <http://www.epa.gov/advisorycouncilcaa>, <http://www.epa.gov/casac> and <http://www.epa.gov/sab>.

Members of the Council, CASAC, the SAB, and subcommittees constitute a distinguished body of non-EPA scientists, engineers, economists, and social scientists that are nationally and internationally recognized experts in their respective fields. Members are appointed by the EPA Administrator for a period of three years, with the possibility of re-appointment to a second three year term. This notice specifically requests nominations for the chartered Council, the chartered CASAC, the chartered SAB and SAB subcommittees.

Expertise Sought: The Council was established in 1990 pursuant to the Clean Air Act (CAA) Amendments of 1990 to provide advice and recommendations to the EPA Administrator on technical and economic aspects of the impacts of the Clean Air Act (CAA) on the public health, economy, and environment of the United States. The SAB Staff office is seeking nominations for individuals to serve on the Council with demonstrated expertise in air pollution issues. A nominee's expertise may include the following disciplines: *environmental economics; economic modeling; air quality modeling;*

atmospheric science and engineering; ecology and ecological risk assessment; epidemiology; environmental health sciences; statistics; and human health risk assessment.

Established in 1977 under the Clean Air Act (CAA) Amendments, the chartered CASAC reviews and offers scientific advice to the EPA Administrator on technical aspects of national ambient air quality standards for criteria pollutants. As required under the CAA section 109(d), CASAC will be composed of seven members, with at least one member of the National Academy of Sciences, one physician, and one person representing State air pollution control agencies. The SAB Staff Office is seeking nominations of experts to serve on the CASAC with demonstrated experience in the evaluation of effects of air pollution on human health and ecosystems. A nominee's expertise may include the following disciplines: *public health; environmental medicine; environmental health sciences; ecological sciences, and risk assessment.*

The chartered SAB was established in 1978 by the Environmental Research, Development and Demonstration Act to provide independent advice to the Administrator on general scientific and technical matters underlying the Agency's policies and actions. All the work of the SAB is under the direction of the Board. The chartered Board provides strategic advice to the EPA Administrator on a variety of EPA science and research programs and reviews and approves all SAB subcommittee and panel reports. The chartered SAB consists of about thirty members. The SAB Staff Office is seeking nominations of experts to serve on the chartered SAB in the following disciplines: *behavioral and decision sciences; ecological sciences and risk assessment; environmental modeling; industrial ecology; environmental engineering specializing in agricultural systems; environmental medicine; pediatrics; public health; and human health risk assessment.*

The SAB Drinking Water Committee (DWC) provides advice on the technical aspects of EPA's national drinking water standards program. The SAB Staff Office is seeking nominations of experts to serve on the DWC in the following disciplines: *water chemistry; microbiology; toxicology; epidemiology; environmental health sciences; and environmental engineering.*

The SAB Environmental Economics Advisory Committee (EEAC) provides advice on methods and analyses related to economics, costs, and benefits of EPA environmental programs. The SAB Staff

office is seeking nominations of experts to serve on EEAC in the following disciplines: *environmental economics; cost-benefit analysis; uncertainty analysis; climate change mitigation; agricultural economics; marine resource economics; emissions trading; and market mechanisms and incentives.*

The SAB Exposure and Human Health Committee (EHHHC) provides advice on the development and use of guidelines for human health effects, exposure assessment, and human health risk assessment of chemical contaminants. The SAB Staff Office is seeking nominations of experts to serve on the EHHHC in the following disciplines: *environmental exposure and modeling; industrial hygiene; dosimetry and biological modeling; public health; pediatrics; epidemiology; toxicology; biostatistics; and risk assessment.*

The SAB Environmental Engineering Committee (EEC) provides advice on risk management technologies to control and prevent pollution. The SAB Staff Office is seeking nominations of experts to serve on EEC with demonstrated expertise in the following areas: *agricultural engineering; environmental nanotechnology; environmental system modeling; water infrastructure systems; watershed management; environmental remediation and technology; and industrial ecology.*

The SAB Ecological Processes and Effects Committee (EPEC) provides advice on technical issues related to the science and research to protect and restore the health of ecosystems. The SAB Staff Office is seeking nominations of experts to serve on EPEC with demonstrated expertise in the following disciplines: *marine and estuarine ecology; aquatic ecology; forest ecology; systems ecology; and ecological risk assessment.*

The Radiation Advisory Committee (RAC) provides advice on radiation protection, radiation science, and radiation risk assessment. The SAB Staff Office is seeking nominations of experts to serve on RAC with demonstrated expertise in the following disciplines: *radiation biology; radiation biophysics; radiation dosimetry; and cancer epidemiology.*

How to Submit Nominations: Any interested person or organization may nominate qualified persons to be considered for appointment to these chartered advisory committees and SAB subcommittees. Individuals may self-nominate. Qualified nominees will demonstrate appropriate scientific education, training, and experience to evaluate basic and applied science issues addressed by these advisory committees. Successful nominees will

have distinguished themselves professionally and be available to invest the time and effort in providing advice and recommendations on the development and application of science at EPA. Nominations should be submitted in electronic format (preferred) following the instructions for "Nominating Experts to a Chartered Advisory Committee or Standing Committee" provided on the SAB Web site. The form can be accessed through the "Nomination of Experts" link on the blue navigational bar on the SAB Web site at <http://www.epa.gov/sab>. To be considered, all nominations should include the information requested.

Nominators are asked to identify the specific committee(s) for which nominees would like to be considered. The nominating form requests contact information about: the person making the nomination; contact information about the nominee; the disciplinary and specific areas of expertise of the nominee; the nominee's curriculum vita; and a biographical sketch of the nominee indicating current position, educational background; research activities; and recent service on other national advisory committees or national professional organizations. Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB Web site, should contact Ms. Wanda Bright as indicated above in this notice. Non-electronic submissions must follow the same format and contain the same information as the electronic form. The SAB Staff Office will acknowledge receipt of nominations.

Candidates invited to serve will be asked to submit the "Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency" (EPA Form 3110-48). This confidential form allows EPA to determine whether there is a statutory conflict between that person's public responsibilities as a Special Government Employee and private interests and activities, or the appearance of a lack of impartiality, as defined by Federal regulation. The form may be viewed and downloaded through the "Ethics Requirements for Advisors" link on the blue navigational bar on the SAB Web site at <http://www.epa.gov/sab>. This form should not be submitted as part of a nomination.

The SAB Staff Office seeks candidates who possess the necessary domains of knowledge, and relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation) to adequately

address scientific issues facing the Agency. The primary criteria to be used in evaluating potential nominees will be scientific and/or technical expertise, knowledge, and experience. Additional criteria that will be used to evaluate technically qualified nominees will include: the absence of financial conflicts of interest; scientific credibility and impartiality; availability and willingness to serve; and the ability to work constructively and effectively on committees. The selection of new members will also include consideration of the collective breadth and depth of scientific perspectives; a balance of scientific perspectives; continuity of knowledge and understanding of EPA missions and environmental programs; and diversity factors (e.g. geographical areas and professional affiliations) for each of the chartered committees and subcommittees.

Dated: March 27, 2009.
