Entities potentially regulated by this action also include privately operated CII facilities at the Ports of Long Beach and Los Angeles. Entities affected by this action are located within either of two watersheds in Los Angeles County, in California: the Los Cerritos Channel/Alamitos Bay Watershed or the Dominguez Channel/Los Angeles/Long Beach Harbor Watershed. This description of affected activities is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. B. Summary of Preliminary Designation

CWA section 402(p)(2)(E) and (6) and EPA’s implementing regulations at 40 CFR 122.26(a)(9)(i) authorize EPA to designate stormwater discharges for regulation under the NPDES permitting program. Those provisions authorize the Agency to regulate stormwater discharges that contribute to a water quality standard violation or that are a significant contributor of pollutants to waters of the United States, or where controls are needed based on wasteload

allocations that are part of total maximum daily loads. This authority is often referred to as “residual designation authority” or RDA. EPA is providing notice of and soliciting comment on its preliminary designation for NPDES permitting of unregulated stormwater discharges from certain commercial, industrial and institutional (CII) facilities in the Los Cerritos Channel/Alamitos Bay and Dominguez Channel/Los Angeles/Long Beach Harbor Watersheds in Los Angeles County, including privately operated CII facilities at the Ports of Long Beach and Los Angeles. EPA is also taking comment on whether privately operated CII facilities at municipal airports located within the watersheds should be included.

This preliminary designation is in response to a 2018 District Court order in *Los Angeles Waterkeeper v. Pruitt*, as well as two September 15, 2015 petitions entitled “Petition For A Determination That Stormwater Discharges From Commercial, Industrial, And Institutional Sites Contribute To Water Quality Standards Violations in Dominguez Channel and the Los Angeles/Long Beach Inner Harbor (Los Angeles County, California) and Require Clean Water Act Permits,” and “Petition For A Determination That Stormwater Discharges From Commercial, Industrial, And Institutional Sites Contribute To Water Quality Standards Violations in the Alamitos Bay/Los Cerritos Watershed (Los Angeles County, California) And Require Clean Water Act Permits.”

C. How can I submit comments?

Submit comments by the deadline identified in this **Federal Register** notice. Information on how to submit comments and documents related to this preliminary designation are available for public inspection online at **ADDRESSES** above. If you need assistance in a language other than English or if you are a person with disabilities who needs a reasonable accommodation at no cost to you, please reach out by email or telephone to the **FURTHER INFORMATION CONTACT** listed above in this notice.
