### Abstract of Information Available

A total of 12 cultural items have been requested for repatriation. The 12 unassociated funerary objects consist of 10 small projectile points, one stone disc fragment, and one large stone grinding slab. These items were surface collected in the 1920s from CA–LAN–192 (Lovejoy Springs site, CA) by Bob Wubben. They were donated to the Museum in 1992 by Robert W. and Doris M. Wubben of Torrance, CA.

### Determinations

The Santa Barbara Museum of Natural History has determined that:

- The 12 unassociated funerary objects described in this notice were reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- There is a reasonable connection between the cultural items described in

this notice and the Morongo Band of Mission Indians, California and the Yuhaaviatam of San Manuel Nation (previously listed as San Manuel Band of Mission Indians, California).

### Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after September 15, 2025. If competing requests for repatriation are received, the Santa Barbara Museum of Natural History must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The Santa Barbara Museum of Natural History is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.

#### Abstract of Information Available

Based on the information available, human remains representing, at least, one individual have been reasonably identified. The one lot of associated funerary objects are primarily pottery sherds, both burnt and unburnt, as well as faunal remains. These ancestral remains and associated funerary objects have not been itemized out of respect to them and a desire to disturb them as little as possible. On May 2, 2025, CAGR staff was performing historic preservation on Compound A (AZ AA:02:14) by removing previous layers of historic concrete treatments from the western wall of Room 31 in Pinal County, Arizona. In between two layers of concrete, there was a four-inch layer of loose dirt, and the cremated ancestral remains were located there.

#### Determinations

CAGR has determined that:

- The human remains described in this notice represent the physical remains of at least one individual of Native American ancestry.
- The one lot of objects described in this notice are reasonably believed to have been placed intentionally with or

near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony.

- The Gila River Indian Community of the Gila River Indian Reservation, Arizona has priority for disposition of the human remains and associated funerary objects described in this notice.

Requests for joint disposition of the human remains and associated funerary objects are considered a single request and not competing requests. #### Abstract of Information Available

A total of 17 cultural items have been requested for repatriation. The 17 sacred objects/objects of cultural patrimony are baskets. The donor of the objects is Albert May Todd (A.M. Todd). A.M. Todd was a wealthy entrepreneur known for his success in the mint oil industry and for his extensive travels and collecting. After establishing his business in Kalamazoo in 1891, he began traveling primarily to Europe, where he amassed a vast and eclectic collection of art and cultural artifacts. His interests included European paintings, pottery, Native American art, and antiquities from Ancient Rome and Egypt. On one trip alone, he returned with 30,000 pounds of art. Todd displayed his collection publicly in his downtown offices and throughout Kalamazoo in schools and other institutions, driven by a belief that art and culture should be accessible to all—though his collecting reflected the Eurocentric and colonialist views of his time. Many items were shared informally with institutions before being officially donated, and upon his death in 1931, his collection was distributed across schools, colleges, museums, and libraries in Michigan.
