

The tri-isononyl tri-mellitate tri-ester is made by reacting primary isononyl (C9) alcohol with trimellitic anhydride. The ester is produced by esterification of 3 moles of isononyl C9 alcohol and 1 mole of trimellitic anhydride in the presence of a catalyst.

By using excess alcohol (up to 30% molar excess of C9 alcohol) and removing the water, the equilibrium is shifted towards the formation of the tri-ester. The reactants are charged into a reactor and heated up. The reaction rate is accelerated by using, for example, tetra-n-butyl titanate introduced at high temperature (140°C–250°C), while removing the water formed.

Excess alcohol is distilled from the ester by vacuum prior to neutralization and recycled into subsequent batches. The final ester is purified by neutralizing with a base such as an aqueous solution of sodium carbonate. The remaining excess water is distilled off and the ester is then filtered using filter agents. The degree of purity of the ester is min 99.0 wt%.

### Cooperative Studies Scientific Evaluation Committee; Notice of Meeting

The Department of Veterans Affairs (VA) gives notice under the Federal

Advisory Committee Act, 5 U.S.C. ch. 10, that the Cooperative Studies Scientific Evaluation Committee (CSSEC) will hold a meeting on June 12, 2025, at the VA Office of Research & Development Conference Room (4042) at 811 Vermont Avenue NW, Washington, DC 20571, 9:30 a.m. to 4:15 p.m. EST.

The Committee provides expert advice on VA cooperative studies, multi-site clinical research activities, and policies related to conducting and managing these efforts. The session will be open to the public for the first 30 minutes of the meeting (approximately) for the discussion of administrative matters and the general status of the program. The remaining portion of the meeting will be closed to the public for the Committee's review, discussion, and evaluation of research and development applications.

During the closed portion of the meeting, the Committee's discussions and recommendations will address the qualifications of the personnel conducting the studies; staff and consultant critiques of research proposals and similar documents; and the medical records of study subjects, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Additionally, premature disclosure of research information to the public could significantly obstruct implementation of approved research activities. As provided by Public Law 92–463 subsection 10(d), and amended by Public Law 94–409, closing the Committee meeting is in accordance with 5 U.S.C. 552b(c)(6) and (9)(B).

The Committee will not accept oral comments from the public for the open portion of the meeting. Members of the public who wish to attend the open teleconference should call 872–701–0185, conference ID 554 433 71#. Those who plan to attend, would like additional information, or would like to submit written comments should contact David Burnaska, Program Manager, Cooperative Studies Program (14RD), Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420, at [David.Burnaska@va.gov](mailto:David.Burnaska@va.gov).
