

668dd–668ee *et seq*) requires a CCP. The purpose in developing CCPs is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife science, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, the CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update these CCPs at least every 15 years in accordance with the National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997, and the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370d).

Necedah National Wildlife Refuge was established in 1939 as a refuge and breeding ground for migratory birds and for use as an inviolate sanctuary for migratory birds. Located in central Wisconsin, the Refuge includes 43,696 acres consisting of wetlands and open water areas, pine, oak, and aspen forests, grasslands, and rare savannas.

Three alternatives were considered in the EA: (1) No action; (2) follow the course set in the 1979 Master Plan; or (3) follow the course established in the CCP (preferred alternative). Significant issues addressed in the CCP include the proposal to acquire land within the Yellow River Focus Area and management of endangered species that use the Refuge, including the Eastern massassagua rattlesnake, the Karner blue butterfly, and a migratory flock of Whooping Cranes. There was strong public interest in the plan, and the Service provided many opportunities for public comment in meetings in the community. Following a 60-day comment period on the Draft CCP (65 FR 46940, August 1, 2000), a revised Draft CCP was produced and another 60-day comment period was provided (66 FR 52776, October 17, 2001). The plan was revised to address the issues raised by the public, including the decision to reduce the area within the Yellow River Focus Area where land acquisition would be one of the tools available to facilitate restoration and conservation efforts. Assistance to local landowners would remain the priority means of habitat restoration and conservation throughout the Focus Area. It has been determined that the CCP is not a major Federal action that

would significantly affect the quality of the human environment, within the meaning of Section 102(2)(c) of the National Environmental Policy Act of 1969.

Dated: March 26, 2003.

Marvin E. Moriarty,
Acting Regional Director.

Editorial Note: This document was received at the Office of the Federal Register December 20, 2004.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit.

SUMMARY: The public is invited to comment on the following applications to conduct certain activities with endangered species and/or marine mammals.

DATES: Written data, comments or requests must be received by January 26, 2005.

ADDRESSES: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 30 days of the date of publication of this notice to: U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203; fax 703/358–2281.

FOR FURTHER INFORMATION CONTACT: Division of Management Authority, telephone 703/358–2104.

SUPPLEMENTARY INFORMATION:

Endangered Species

The public is invited to comment on the following applications for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*). Written data, comments, or requests for copies of these complete applications should be submitted to the Director (address above).

Applicant: John M. Searles, Flint, MI, PRT–093993.

The applicant requests a permit to import the sport-hunted trophy of one

male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Nicholas A. Russo, Sr., Allentown, NJ, PRT–094471.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Endangered Marine Mammals and Marine Mammals

The public is invited to comment on the following applications for a permit to conduct certain activities with marine mammals. The applications were submitted to satisfy requirements of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361, *et seq.*), and the regulations governing marine mammals (50 CFR Part 18). Written data, comments, or requests for copies of the complete applications or requests for a public hearing on these applications should be submitted to the Director (address above). Anyone requesting a hearing should give specific reasons why a hearing would be appropriate. The holding of such a hearing is at the discretion of the Director.

Applicant: John F. Byrnes, Omaha, NE, PRT–091493.

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport hunted from the Northern Beaufort Sea polar bear population in Canada for personal use.

Applicant: Mark E. Buchanan, San Diego, CA, PRT–094374.

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport hunted from the Lancaster Sound polar bear population in Canada for personal use.

Dated: October 29, 2004.

Michael L. Carpenter,

Senior Permit Biologist, Branch of Permits, Division of Management Authority.
