Title: Forest Service Pilot and Aircraft Record Forms.

OMB Number: 0596-0015.

Expiration Date of Approval: February 28, 2022.

Type of Request: Renewal with revisions of a currently approved information collection.

Abstract: The Forest Service contracts with approximately 400 vendors a year for commercial aviation services utilized in resource protection and project management. In recent years, the total annual use of contract aircraft and pilots has exceeded 80,000 hours. In order to maintain an acceptable level of safety, preparedness, and cost-effectiveness in aviation operations, Forest Service contracts include rigorous qualifications for pilots and specific condition, equipment, and performance requirements for aircraft as aviation operations are conducted under extremely adverse conditions of weather, terrain, turbulence, smoke reduced visibility, minimally improved landing areas, and congested airspace around wildfires. To ensure pilots and aircraft used for aviation operations meet specific Forest Service qualifications and requirements for aviation operations, prospective contract pilots complete one of the following Forest Service forms:

- FS-5700-20—Airplane Pilot Qualifications and Approval Record
 - FS-5700-20a—Helicopter Pilot Qualifications and Approval Record
- Agency Aircraft Inspectors use the following forms when inspecting aircraft for contract compliance:
- FS-5700-21—Airplane Data Record
 - FS-5700-21a—Helicopter Data Record

Based upon approval(s) documented on the form(s), each contractor pilot and aircraft receive an approval card. Forest Service personnel verify possession of properly approved cards before using contracted pilots and aircraft.

Information collected on pilot forms includes:

- Name.
- Address.
- Certification numbers.
- Employment history.
- Medical Certification.
- Airplane/helicopter certifications and specifications.
- Accident/violation history.

Without the collected information, Forest Service Pilot and Aircraft

Inspectors and Forest Service Contracting Officers cannot determine whether contracted pilots and aircraft meet detailed qualification, equipment, and condition requirements essential to safe and effective accomplishment of Forest Service-specified flying missions. Without a reasonable basis to determine pilot qualifications and aircraft capability, Forest Service employees would be exposed to hazardous conditions. Data collected documents approval of contract pilots and aircraft for specific Forest Service aviation special missions. Information will be collected and reviewed by Pilot and Aircraft Inspectors to determine whether aircraft and/or pilot(s) meet all agency requirements in accordance with Forest Service Handbook (FSH) 5709.16, chapter 10, sections 15 and 16. Forest Service pilot and aircraft inspectors maintain collected information in Forest Service regional and national offices. The Forest Service, at times, shares the information with the Department of the Interior, Office of Aviation Services, as each organization accepts contract inspections conducted by the other.

Type of Request: Extension with revisions of a currently approved information collection.

Abstract: Forest Service contracts for the sale of timber and other forest products are bilateral contracts in which both contracting parties are bound to fulfill obligations reciprocally. By their nature, bilateral contracts require both parties to routinely share information and enter into agreements pertaining to operations and performance. Some information collected under Forest Service contracts is required by laws, regulations, and/or timber sale policies. Each contract specifies information the contractor will be required to provide, including the timing and frequency of the information collection.

The type and amount of information collected varies depending on the size, complexity, and length of each contract, and external factors such as weather and market conditions. The information collected includes plans, requests, agreements, and notices necessary for operations under the terms of the contracts. Forest Service officers collect the information from contractors who may be individuals, private sector businesses, or other government entities. The information is submitted in a variety of formats including Forest Service forms, Government Standard and/or Common Forms, forms developed by individual contractors, charts, maps, email messages, facsimiles, and letters. OMB Number: 0535–0004.

Expiration Date of Approval: March 31, 2022.

Type of Request: Intent to seek approval to revise and extend an information collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Egg, Chicken, and Turkey Surveys obtain basic poultry statistics from voluntary cooperators throughout the Nation. Statistics are published on placement of pullet chicks for hatchery supply flocks; hatching reports for broiler-type, egg-type, and turkey eggs; number of layers on hand; total table egg production; and production and value estimates for eggs, chickens, and turkeys. The frequencies of the surveys being conducted include weekly, monthly, and annually. This information is used by producers, processors, feed dealers, and others in marketing and supply channels as a basis for production and marketing decisions. Government agencies use these estimates to evaluate poultry product supplies. The information is an important consideration in government purchases for the National School Lunch Program and in formulation of export-import policy. The current expiration date for this docket is March 31, 2022. NASS intends to request that the surveys be approved for another 3 years.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Estimated Number of Respondents: 2,800.

Estimated Total Annual Burden on Respondents: 4,100 hours. This will include burden for both the initial mailing and phone follow-up to non-respondents, as well as publicity and instruction materials mailed out with questionnaires.
