SUPPLEMENTARY INFORMATION: On March 29, 2001 (66 FR 17206), the NRC published a document in the **Federal Register** (FR) announcing the formation of a working group composed of representatives from the NRC and Agreement States. The working group was tasked to identify areas that need improvements in the NRC review process and propose a draft revised procedure that addresses issues identified by the working group and stakeholders.

The working group, consisting of five representatives from the States, three NRC representatives and an NRC resource representative, began work in April 2001. Over the past four months, the working group has held three teleconference calls and one face-to-face meeting with stakeholders. Comments and input received from the working group, stakeholders and NRC staff have been considered and reflected in the procedure.

Before finalizing its task, the working group would like to make the procedure available to NRC offices, Agreement States and stakeholders for review and comment. The procedure is available at the STP Web site at "U Mill License Termination," <http://www.hsrdr.ornl.gov/nrc/Umill.htm> on the tool bar. The last working group teleconference call is scheduled in late September. Comments received by the

working group will be reviewed and discussed, and incorporated into the procedure, if accepted. The working group is scheduled to complete the project by October 2001. The final STP SA-900 procedure is expected to be issued in November 2001.
