

to purchase equipment to support advance level EMS services. Items that are eligible but a lower priority include tents, shelters, generators, lights, and heating and cooling units. Firefighting equipment is not eligible under this activity.

As discussed previously, organizations taking on "new risks" will be afforded much higher consideration than an organization taking on a "new mission."

(iii) *EMS Personal Protective Equipment.* DHS gave the same priorities for EMS PPE as it did for fire department PPE discussed above. Acquisition of PASS devices or any firefighting PPE is not eligible, however, for funding for EMS organizations.

(iv) *Wellness and Fitness Activities.* DHS believes that to have an effective wellness/fitness program, nonaffiliated EMS organizations must offer periodic health screenings, entry physical

examinations, and an immunization program similar to the programs for fire departments discussed previously. Accordingly, applicants for grants in this category must currently offer or plan to offer with grant funds *all three benefits* (periodic health screenings, entry physical examinations, and an immunization program) to receive funding for any other initiatives in this activity. The priorities for EMS wellness/fitness programs are the same as for fire departments as discussed above.

(v) *Modification to EMS Stations and Facilities.* DHS believes that the competitive rankings and priorities applied to modification of fire stations and facilities, discussed above, apply equally to EMS stations and facilities.

(2) *EMS Vehicle Acquisition Program.*

DHS gave the highest funding priority to acquisition of ambulances and transport vehicles due to the inherent

benefits to the community and EMS service provider. Due to the costs associated with obtaining and outfitting non-transport rescue vehicles relative to the benefits derived from such vehicles, DHS will give non-transport rescue vehicles a lower competitive rating than transport vehicles. Vehicles that have a very narrow function, such as aircraft, boats, and all-terrain vehicles, received the lowest competitive rating. DHS anticipates that the EMS vehicle awards will be very competitive due to very limited available funding. Accordingly, DHS will likely only fund vehicles that are listed as a "Priority One" in the 2007 program year.

The following chart delineates the priorities in this program area for EMS vehicle program. The priorities are the same regardless of the type of community served.

EMS VEHICLE PRIORITIES

Priority one	Priority two	Priority three
• Ambulance or transport unit to support EMT-B needs and functions	• First responder non-transport vehicles • Special operations vehicles	• Helicopters/planes. • Command vehicles. • Rescue boats (over 13 feet in length). • Hovercraft. • Other special access vehicles.

Along with the priorities illustrated above, DHS has accepted the fire service recommendation that emerged from the criteria development process that funding applicants that own few or no vehicles of the type sought will be more beneficial than funding applicants that own numerous vehicles of that same type. DHS assesses the number of vehicles an applicant owns by including all vehicles of the same type. For example, transport vehicles will be considered the same as ambulances. DHS will give a higher competitive rating to applicants that have an aged fleet of emergency vehicles, and to applicants with old, high-mileage vehicles. DHS will give a higher competitive rating to applicants that respond to a significant number of incidents relative to applicants responding less often. Finally, DHS will afford applicants with transport vehicles with high mileage more consideration than applicants with vehicles that driven extensively.

(3) *Administrative Costs.* Panelists assess the reasonableness of the administrative costs requested in each application and determined whether the

request will be reasonable and in the best interest of the program.

Dated: March 16, 2007.

George W. Foresman,

Under Secretary for Preparedness.

Bureau of Customs and Border Protection

[CBP Dec. 07-06]

Re-Accreditation and Re-Approval of Camin Cargo Control Inc., as a Commercial Gauger and Laboratory

AGENCY: Bureau of Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of re-approval of Camin Cargo Control Inc., of Chelsea, Massachusetts, as a commercial gauger and laboratory.

SUMMARY: Notice is hereby given that, pursuant to 19 CFR 151.12 and 151.13, Camin Cargo Control Inc., 471 Eastern

Avenue, Chelsea, Massachusetts 02150, has been re-approved to gauge petroleum and petroleum products, organic chemicals and vegetable oils, and to test petroleum and petroleum products for customs purposes, in accordance with the provisions of 19 CFR 151.12 and 151.13. Anyone wishing to employ this entity to conduct laboratory analysis or gauger services should request and receive written assurances from the entity that it is accredited or approved by the Bureau of Customs and Border Protection to conduct the specific test or gauger service requested. Alternatively, inquiries regarding the specific tests or gauger services this entity is accredited or approved to perform may be directed to the Bureau of Customs and Border Protection by calling (202) 344-1060. The inquiry may also be sent to http://www.cbp.gov/xp/cgov/import/operations_support/labs_scientific_svcs/org_and_operations.xml.

DATES: The re-approval of Camin Cargo Control Inc., as a commercial gauger and laboratory became effective on August 22, 2006. The next triennial inspection date will be scheduled for August 2009.

FOR FURTHER INFORMATION CONTACT:

Eugene J. Bondoc, Ph.D, or Randall Breaux, Laboratories and Scientific Services, Bureau of Customs and Border Protection, 1300 Pennsylvania Avenue, NW., Suite 1500N, Washington, DC 20229, 202-344-1060.

Dated: March 15, 2007.

Ira S. Reese,

Executive Director Laboratories and Scientific Services.
