Mary E. Peters,

Federal Highway Administrator.

In consideration of the foregoing, the FHWA proposes to amend part 772 of title 23, Code of Federal Regulations, as follows:

The costs of such measures may be included in Federal-aid participating project costs with the Federal share being the same as that for the system on which the project is located.

(1) Traffic management measures (*e.g.*, traffic control devices and signing for prohibition of certain vehicle types, time-use restrictions for certain vehicle types, modified speed limits, and exclusive lane designations).

(d) There may be situations where severe traffic noise impacts exist or are expected, and the abatement measures listed above are physically infeasible or economically unreasonable. In these instances, noise abatement measures other than those listed in paragraph (c) of this section may be proposed for Types I and II projects by the highway agency and approved by the FHWA on a case-by-case basis when the conditions of paragraph (a) of this section have been met.

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to partially delete the Davenport and Flagstaff Smelters Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region 8 is issuing a notice of intent to partially delete the Davenport and Flagstaff Smelters Superfund Site (Site), located in Salt Lake County, Utah, from the National Priorities List (NPL) and requests public comments on this notice of intent. Specifically, EPA intends to delete 23 residential properties within the Site. The NPL constitutes Appendix B to the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR part 300, which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980 as amended. The EPA and the state of Utah, through the Utah Department of Environmental Quality, have determined that all appropriate response actions under CERCLA have been completed for the properties subject to the partial deletion. However, this partial deletion does not preclude future actions under Superfund.

In the “Rules and Regulations” section of today’s **Federal Register**, we are publishing a direct final notice of partial deletion of the Davenport and Flagstaff Smelters Superfund Site without prior notice of intent to partially delete because we view this as a non-controversial revision and anticipate no adverse comment. We have explained our reasons for this partial deletion in the preamble to the

direct final partial deletion. If we receive no adverse comment(s) on this notice of intent to partially delete or the direct final notice of partial deletion, we will not take further action on this notice of intent to partially delete. If we receive adverse comment(s), we will withdraw the direct final notice of partial deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final partial deletion notice based on this notice of intent to partially delete. We will not institute a second comment period on this notice of intent to partially delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of partial deletion that is located in the "Rules and Regulations" section of this **Federal Register**.
