NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts; Determination of the Chairperson of the National Endowment for the Arts Regarding Potential Closure of Portions of Meetings of the National Council on the Arts

Section 6(f) of the National Foundation on the Arts and the Humanities Act of 1965, as amended (20 U.S.C. 951 *et seq.*) authorizes the National Council on the Arts to review applications for financial assistance to the National Endowment for the Arts and make recommendations to the Chairperson.

The Federal Advisory Committee Act (FACA), as amended (Pub. L. 92-463) governs the formation, use, conduct, management, and accessibility to the public of committees formed to advise the Federal Government. Section 10 of that Act directs meetings of advisory committees to be open to the public, except where the head of the agency to which the advisory committee reports determines in writing that a portion of a meeting may be closed to the public consistent with subsection (c) of section 552b of title 5, United States Code (the Government in the Sunshine Act).

It is the policy of the National Endowment for the Arts that meetings of the National Council on the Arts be

conducted in open session, including those parts during which applications are reviewed. However, in recognition that the Endowment is required to consider the artistic excellence and artistic merit of applications for financial assistance and that consideration of individual applications may require a discussion of matters such as an individual artist's abilities, reputation among colleagues, or professional background and performance, I have determined to reserve the right to close limited portions of Council meetings if such information is to be discussed. The purpose of the closure is to protect information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy. Closure for this purpose is authorized by subsection (c)(6) of section 552b of title 5 United States code.

Additionally, the Council will consider prospective nominees for the National Medal of Arts award in order to advise the President of the United States in his final selection of National Medal of Arts recipients. During these sessions, similar information of a personal nature will be discussed. As with applications for financial assistance, disclosure of this information about individuals who are under consideration for the award would constitute a clearly unwarranted invasion of personal privacy.

Therefore, in light of the above, I have determined that those portions of Council meetings devoted to consideration of prospective nominees for the National Medal of Arts award, may be closed to the public. Closure for these purposes is authorized by subsections (c)(6) of section 552b of title 5, United States Code. A record shall be maintained of any closed portion of the Council meeting. Further, in accordance with the FACA, a notice of any intent to close any portion of the Council meeting will be published in the **Federal Register**.

Dated: March 10, 2005.

Dana Gioia,

Chairman, National Endowment for the Arts.

The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond

to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:*

DOE/NRC Form 741, Nuclear Material Transaction Report; DOE/NRC Form 740M, Concise Note; and NUREG/BR-0006, Revision 6, Instructions for Completing Nuclear Material Transaction Reports (DOE/NRC Forms 741 and 740M).

3. *The form number if applicable:*

DOE/NRC Form 741: 3150-0003.

DOE/NRC Form 740M: 3150-0057.

4. *How often the collection is required:*

DOE/NRC Form 741: As occasioned by special nuclear material or source material transfers, receipts, or inventory changes that meet certain criteria. Licensees range from not submitting any forms to submitting over 5,000 forms annually.

DOE/NRC Form 740M: As necessary to inform the U.S. or the International Atomic Energy Agency (IAEA) of any qualifying statement or exception to any of the data contained in any of the other reporting forms required under the US/IAEA Safeguards Agreement. On average, 15 licensees submit about 10 forms each per year—150 forms annually.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-325 and 50-324]

Carolina Power & Light Company; Brunswick Steam Electric Plant, Units 1 and 2 Exemption

1.0 Background

The Carolina Power & Light Company (CP&L, the licensee) is the holder of

Facility Operating Licenses Nos. DPR-71 and DPR-62, which authorize operation of the Brunswick Steam Electric Plant (BSEP), Units 1 and 2. The licenses provide, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect.

The facility consists of two boiling-water reactors located in Brunswick County in North Carolina.

2.0 Request/Action

Title 10 of the Code of Federal Regulations (10 CFR), Section 50.54(o) requires that primary reactor containments for water-cooled power reactors be subject to the requirements of Appendix J to 10 CFR Part 50. Appendix J specifies the leakage test requirements, schedules, and acceptance criteria for tests of the leaktight integrity of the primary reactor containment and systems and components that penetrate the containment. Appendix J, Option B, Section III.A requires that the overall integrated leak rate must not exceed the allowable leakage (La) with margin, as specified in the Technical Specifications (TS). The overall integrated leak rate, as specified in the 10 CFR Part 50, Appendix J definitions, includes the contribution from main steam isolation valve (MSIV) leakage. By letter dated October 6, 2004, the licensee has requested exemption from Option B, Section III.A requirements to permit exclusion of MSIV leakage from the overall integrated leak rate test measurement.

Option B, Section III.B of 10 CFR Part 50, Appendix J requires that the sum of the leakage rates of all Type B and Type C local leak rate tests be less than the performance criterion (La) with margin, as specified in the TS.

On May 30, 2002, the NRC issued Amendment Nos. 221 and 246 to the Facility Operating Licenses for BSEP, Units 1 and 2, respectively. These amendments revised the TS to replace the accident source term used in loss-of-coolant accident (LOCA), main steamline break (MSLB) accident, and control rod drop accident (CRDA) design-basis analyses with an alternate source term (AST) in accordance with 10 CFR 50.67, "Accident Source Term." On March 14, 2002, the NRC issued Amendment Nos. 218 and 244 for BSEP, Units 1 and 2, respectively, revising the facility TS to replace the accident source term used in the fuel handling accident (FHA) design-basis accident analyses with an AST in accordance with 10 CFR 50.67.
