As required under 49 CFR 1150.43(h)(1), LRWY has disclosed in its verified notice that the Amended Lease contains an interchange commitment in the form of lease credits. LRWY states that these credits were part of the Original Lease and the terms of the credits in the Amended Lease remain unchanged. LRWY has provided additional information regarding the interchange commitment, as required by 49 CFR 1150.43(h). LRWY notes that it will continue to be the operator of the line.

The transaction may be consummated on or after October 15, 2016, the effective date of the exemption (30 days after the verified notice of exemption was filed). If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed by October 7, 2016 (at least seven days prior to the date the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 36062, must be filed with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001. Diabetes Mellitus and Driving Experience of the Applicants

The Agency established the current requirement for diabetes in 1970 because several risk studies indicated that drivers with diabetes had a higher rate of crash involvement than the general population. The diabetes rule provides that "A person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring
