Meeting Accessibility: In accordance with section 10(d) of the FACA and 41 CFR 102-3.155, the DoD has determined that the DSB meeting will be closed to the public. Specifically, the Under Secretary of Defense for Research and Engineering, in consultation with the DoD Office of the General Counsel, has determined in writing that the meeting will be closed to the public because it will consider matters covered by 5

U.S.C. 552b(c)(1). The determination is based on the consideration that it is expected that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the DSB's findings and recommendations to the Secretary of Defense and to the Under Secretary of Defense for Research and Engineering.

Written Statements: In accordance with section 10(a)(3) of the FACA and 41 CFR 102–3.105(j) and 102–3.140, interested persons may submit a written statement for consideration by the DSB at any time regarding its mission or in response to the stated agenda of a planned meeting. Individuals submitting a written statement must submit their statement to the DSB DFO at the email provided in the **FOR FURTHER INFORMATION CONTACT** section of this notice at any point; however, if a written statement is not received at least three calendar days prior to the meeting, which is the subject of this notice, then it may not be provided to or considered by the DSB until a later date.

Title of Collection: GEPA Section 427 Guidance for All Grant Applications.

OMB Control Number: 1894–0005.

Type of Review: A revision of a currently approved collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 12,816.

Total Estimated Number of Annual Burden Hours: 38,448.

Abstract: On October 20, 1994, the Improving America's Schools Act,

Public Law 103–382 (The Act), became law. The Act added a provision to the General Education Provisions Act (GEPA), section 427. Section 427 of GEPA requires an applicant for assistance under Department programs to develop and describe in the grant application the steps it proposes to take to ensure equitable access to, and equitable participation in, its proposed project for students, teachers, and other program beneficiaries. Applicants have responded to the GEPA 427 requirements for approximately the last 27 years, and the current form expires in June 2023. In response to the Agency's Equity Plan resulting from the President's Executive Order 13985, we now propose to update that form by expanding the number of questions from one to four.

These four questions are intended to help applicants for Department grant funds to be more intentional and specific as to identifying barriers to equitable access and how they will address those barriers consistent with the requirements of section 427 of GEPA. As with the existing form, applicants retain the flexibility to determine and define for themselves the barriers to “equitable access” and “equitable participation” based on the design of their proposed grant projects and the participants and community the project proposes to serve.
