

104(i)(3) of CERCLA [42 U.S.C. 9604(i)(3)] outlines the content of these profiles. Each profile will include an examination, summary, and interpretation of available toxicological information and epidemiologic evaluations. This information and these data are to be used to identify the levels of significant human exposure for the substance and the associated health effects. The profiles must also include a determination of whether adequate information on the health effects of each substance is available or in the process of development. When adequate information is not available, ATSDR, in cooperation with the National Toxicology Program (NTP), is required to ensure the initiation of research to determine these health effects.

Although key studies for each of the substances were considered during the profile development process, this **Federal Register** notice solicits any additional studies, particularly unpublished data and ongoing studies, which will be evaluated for possible addition to the profiles now or in the future.

The following draft toxicological profiles will be made available to the public on or about October 17, 2008.

Document/Hazardous substance	CAS No.
1. Cadmium	007440-43-9
2. Chromium	007440-47-3
3. Manganese	007439-96-5
4. Radon	010043-92-2

All profiles issued as "Drafts for Public Comment" represent ATSDR's best efforts to provide important toxicological information on priority hazardous substances. We are seeking public comments and additional information which may be used to supplement these profiles. ATSDR remains committed to providing a public comment period for these documents as the best means to serve public health and our clients.

Dated: November 3, 2008.

Ken Rose,

Director, Office of Policy, Planning and Evaluation, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 or send comments to Maryam I. Daneshvar, CDC Acting Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Economic Analysis of the National Breast and Cervical Cancer Early Detection Program (OMB# 0920-0776)—Revision—Division of Cancer Prevention and Control, National Center for Chronic Disease Prevention and Health Promotion, Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC administers the National Breast and Cervical Cancer Early Detection Program (NBCCEDP), the largest organized cancer screening program in the United States. The NBCCEDP provides critical breast and cervical cancer screening services to underserved low-income women in the United States, the District of Columbia, 4 U.S. territories, and 13 American

Indian/Alaska Native organizations. The program provides breast and cervical cancer screening for eligible women who participate in the program as well as diagnostic procedures for women who have abnormal findings. During the past decade, the NBCCEDP has provided over 7.8 million breast and cervical cancer screening and diagnostic exams to over 3.2 million low-income women. Those who are diagnosed with cancer through the program are eligible for Medicaid coverage through the Breast and Cervical Cancer Prevention and Treatment Act passed by Congress in 2000.

CDC is currently approved to collect one year of information about activity-based economic costs incurred by the NBCCEDP during the period 07/01/2005-06/30/2006 (OMB No. 0920-0776, exp. 04/30/2009). Respondents are the 68 programs participating in the NBCCEDP. Information is collected electronically through a web-based Cost Allocation Tool (CAT) and includes: Staff and consultant salaries, screening costs, contracts and material costs, provider payments, in-kind contributions, administrative costs, allocation of funds and staff time devoted to specific program activities.

CDC plans to request OMB approval for the collection of two additional, consecutive years of economic information relating to the period 07/01/2007-06/30/2009. Burden to respondents is considered acceptable since they have already been trained to use the CAT. Minor changes to the data collection instrument will be implemented in the proposed second and third years to provide enhanced information about screening and diagnostic activities supported through the use of non-Federal funds.

The activity-based cost data will be used to evaluate grantees to ensure the most appropriate use of limited program resources in delivering program services such as screening, case management and outreach. The detailed cost data will allow CDC to determine the costs of various program components, identify factors that impact average cost, perform cost-effectiveness analysis and budget impact analysis, improve the CAT, and allocate program resources more effectively and efficiently. The collection of economic cost information complements the measures of NBCCEDP effectiveness collected as Minimum Data Elements (0920-0571, exp. 01/31/2010).

There are no costs to respondents other than their time.

Estimated Annualized Burden Hours

Type of respondents	Number of respondents	Number of responses per respondent	Average burden (in hrs)	Total burden (in hrs)
NBCCEDP grantee	68	1	22	1,496

Dated: October 30, 2008.

Maryam I. Daneshvar,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: Objective Work Plan (OWP), Objective Progress Report (OPR) and Project Abstract.

OMB No.: 0980-0204.

Description: Content changes are being made to the OPR ONLY. The information in the OPR is being collected on a quarterly basis to monitor the performance of grantees and better gauge grantee progress. The standardized format will allow ANA to

report results across all its program areas and flag grantees that may need additional training and/or technical assistance to successfully implement their projects.

Following are content changes being made within specific sections of the OPR form:

OBJECTIVE WORK PLAN UPDATE Section: Adding 1st through 4th Quarter (Q1,Q2,Q3,Q4) results for Activities within each Objective. The grantee can continue to add to this form each quarter (rather than on to a new form), reflecting cumulative results throughout the project period rather than just the quarter.

FINANCIAL Section: Add 2 Questions: (1) Provide details on any income generated as a result of ANA project activities; (2) Provide details on any changes made to the budget during the reporting period.

NATIVE AMERICAN YOUTH AND ELDER OPPORTUNITIES Section: Add Question: (1) Request details on any intergenerational activities between grandparents and their grandchildren.

Finally, add a new section (last section) to the form: PROJECT SUSTAINABILITY: (1) Request details on the grantee's intention to continue the project benefits and/or services after the project period has ended.

End of Content Changes to the OPR.

No changes are being made to the OWP or to the Project Abstract (below).

The information collected by the OWP is needed to properly administer and monitor the Administration for Native Americans (ANA) programs within the Administration for Children and Families (ACF). The OWP assists applicants in describing their projects' objectives and activities, and also assists independent panel reviewers, ANA staff and the ANA Commissioner during the review and funding decision process.

The Project Abstract provides crucial information in a concise format that is utilized by applicants, independent reviewers, ANA staff and the ANA Commissioner.

Respondents: Tribal Government, Native non-profit organizations, Tribal Colleges & Universities

Annual Burden Estimates.

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
OWP	500	1	3	1,500
OPR	275	4	1	1,100
Project Abstract	500	1	0.50	250

Estimated Total Annual Burden Hours: 2,850.

In compliance with the requirements of Section 506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. E-mail address: infocollection@acf.hhs.gov. All requests should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed

collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Dated: November 3, 2008.

Janean Chambers,

Reports Clearance Officer.
