

property at Luke Auxiliary Airfield #6, Buckeye, Maricopa County, Arizona from all conditions contained in the Surplus Property Deed since the parcel of land is not needed for airport purposes. The reuse of the land for a roadway improvement project by the City of Buckeye represents an acceptable disposition of the land that is not being used for airport purposes. The property will be sold for its fair market value and the proceeds used for an airport purpose, thus serving the interests of civil aviation.

DATES: Comments must be received on or before October 2, 2015.

SUPPLEMENTARY INFORMATION: In accordance with the Wendell H. The following is a brief overview of the request:

The Arizona State Land Department, Phoenix, Maricopa County, Arizona requested a release from the conditions contained in the Surplus Property Deed for approximately 2.99 acres of airport land. The property is located on the southern and northern sides of the former airfield, on the north side of Yuma Road and the south of Van Buren Street. The land is presently unused and undeveloped. The land is needed for roadway improvements by the City of Buckeye. The Arizona State Land Department agrees to the sale of the land to the City of Buckeye since the property is not needed or being used for airport purposes. The project will aid traffic flow for the City of Buckeye. The sale price will be based on its appraised market value and the sale proceeds will be used for airport purposes by the State. The use of the property for a public roadway will not affect the remainder of the airfield property. The

State will be properly compensated, thereby serving the interests of civil aviation.

[Docket Number FRA-2006-23687]

Petition for Approval of Product Safety Plan

In accordance with part 211 of title 49 of the Code of Federal Regulations (CFR), this document provides the

public notice that by a document dated August 3, 2015, BNSF Railway (BNSF) has petitioned the Federal Railroad Administration (FRA) for approval of its Product Safety Plan (PSP) for its ElectroBlox Wayside Interface Unit (WIU). FRA assigned the petition Docket Number FRA-2006-23687.

The PSP submitted is intended to meet the requirements prescribed in 49 CFR part 236, subpart H, Standards for Processor-Based Signal and Train Control Systems, in § 236.907. As such, BNSF maintains that the ElectroBlox system was designed in a safe manner, reliably executes the functions of an interoperable Positive Train Control (PTC) wayside component, and does not result in risk that exceeds the previous condition.

The ElectroBlox system is used to translate discrete vital inputs into wayside status messages that comply with the Interoperable Train Control (ITC) WIU specification. This system targets applications where existing microprocessor-based equipment either does not exist or in lieu of integrated WIU PTC upgrades to existing electronic signal controllers.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:
