SUPPLEMENTARY INFORMATION:

Authority and Purpose: Under section 301 of Public Law 101–445 (7 U.S.C. 5341, the National Nutrition Monitoring and Related Research Act of 1990, Title III), the Secretaries of HHS and USDA are directed to publish the *Dietary Guidelines for Americans* (*Dietary Guidelines*) jointly at least every five years. The law instructs that this publication shall contain nutritional and dietary information and guidelines for the general public; shall be based on the preponderance of scientific and medical knowledge current at the time of publication; and shall be promoted by each Federal agency in carrying out any Federal food, nutrition, or health program. The current edition of the *Dietary Guidelines* (2020–2025) provides guidance on the entire lifespan, from birth to older adulthood, including pregnancy and lactation. The *Dietary Guidelines for Americans, 2025–2030* will continue to provide food-based dietary guidance across the entire lifespan to help meet nutrient needs, promote health, and reduce the risk of chronic disease. HHS and USDA appointed the 2025 Dietary Guidelines Advisory Committee (Committee) to conduct an independent scientific review that will help inform the Departments' development of the next edition of the *Dietary Guidelines*. The Committee's review and advice will focus on the scientific questions prioritized by HHS and USDA, with the potential to inform nutrition guidance for Americans across the lifespan. Information on the 2025 Committee membership and the scientific questions will be available at www.DietaryGuidelines.gov.

The 2025 Committee's formation is governed under the provisions of the Federal Advisory Committee Act (FACA), Public Law 92–463, as amended (5 U.S.C. app), which sets

forth standards for the formation and use of advisory committees.

Committee's Task: The work of the Committee will be solely advisory in nature and time limited. The Committee will examine evidence on the scientific questions, using approaches including systematic reviews, food pattern modeling, and data analysis. The Committee will then develop a scientific report to be submitted to the HHS and USDA Secretaries. The scientific report should describe the Committee's review and conclusions and provide science-based advice and rationale to the Departments based on the preponderance of evidence reviewed. HHS and USDA will consider the Committee's scientific report as they develop the *Dietary Guidelines for Americans, 2025–2030*. The Committee will hold approximately six meetings, open to the public virtually, to review the evidence and discuss recommendations. Future meeting dates, times, and other relevant information will be announced via **Federal Register** notice and at www.DietaryGuidelines.gov. As stipulated in the charter, the Committee will disband after delivery of its final report to the Secretaries of HHS and USDA, or two years from the date the charter was filed, whichever comes first.

Purpose of the Meeting: In accordance with FACA, and to promote transparency of the process, deliberations of the Committee will occur in a public forum. The purpose of this first meeting is to orient the Committee to the *Dietary Guidelines* process and mark the beginning of its work.

Meeting Agenda: The first meeting agenda will include (a) review of operations for the Committee members, (b) overview of the proposed scientific questions identified by the Departments to be examined by the Committee, (c) presentations on the evidence-based approaches for reviewing the scientific evidence, and (d) plans for future Committee work.

Meeting Registration: The meeting is open to the public. The meeting will be accessible online via livestream and recorded for later viewing. Registration is required for the livestream. To register, go to www.DietaryGuidelines.gov and click on the link for "Meeting Registration." Online registration begins on January 18, 2023 and ends on February 10, 2023. All registrants will be asked to provide their name, affiliation, email address, and days attending. After
