The other information collection requirements contained under this collection and have not changed are as follows:

47 CFR 76.56 requires cable television systems to carry signals of all qualified local commercial and Noncommercial Educational (NCE) stations requesting carriage. As a result of this requirement, the following information collection requirements are needed for this collection:

47 CFR 76.1709(a) states that the operator of every cable television system shall maintain for public inspection a file containing a list of all broadcast television stations carried by its system in fulfillment of the must-carry requirements pursuant to 47 CFR 76.56. Such list shall include the call sign; community of license, broadcast channel number, cable channel number, and in the case of a noncommercial

educational broadcast station, whether that station was carried by the cable system on March 29, 1990.

47 CFR 76.1709(c) states that a cable operator shall respond in writing within 30 days to any written request by any person for the identification of the signals carried on its system in fulfillment of the requirements of 47 CFR 76.56.

47 CFR 76.1614 states that a cable operator shall respond in writing within 30 days to any written request by any person for the identification of the signals carried on its system in fulfillment of the requirements of 47 CFR 76.56. The required written response may be delivered by email, if the consumer used email to make the request or complaint directly to the cable operator, or if the consumer specifies email as the preferred delivery method in the request or complaint.

Additionally, 47 CFR 76.1620 states that if a cable operator authorizes subscribers to install additional receiver connections, but does not provide the subscriber with such connections, or with the equipment and materials for such connections, the operator shall notify such subscribers of all broadcast stations carried on the cable system which cannot be viewed via cable without a converter box and shall offer to sell or lease such a converter box to such subscribers. Such notification must be provided by June 2, 1993, and annually thereafter and to each new subscriber upon initial installation. The notice, which may be included in routine billing statements, shall identify the signals that are unavailable without an additional connection, the manner for obtaining such additional connection and instructions for installation.

Notice of the FDIC's Response to Exception Requests Pursuant to Recordkeeping for Timely Deposit Insurance Determination

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice of the FDIC's response to exception requests pursuant to the Recordkeeping for Timely Deposit Insurance Determination rule.

SUMMARY: In accordance with its rule regarding recordkeeping for timely deposit insurance determination, the FDIC is providing notice to covered institutions that it has granted a timelimited exception concerning the requirement to maintain official custodian information in deposit account records for government deposit accounts, a time-limited exception concerning the requirement to maintain accurate beneficiary information in deposit account records for informal

revocable trust accounts, and an indefinite exception concerning the requirement to maintain certain identifying information for beneficial owners of deposits in low balance, short-term prepaid card accounts.

DATES: The FDIC's grants of exception relief were effective as of November 26, 2019.

FOR FUTHER INFORMATION CONTACT: Peter Miller, Assistant Director, Division of Complex Institution Supervision and Resolution; telephone 917–320–2589.

SUPPLEMENTARY INFORMATION: The FDIC has granted three exception requests pursuant to the FDIC's rule entitled "Recordkeeping for Timely Deposit Insurance Determination," codified at 12 CFR part 370 (part 370).1 Part 370 generally requires covered institutions to implement the information technology system and recordkeeping capabilities needed to quickly calculate the amount of deposit insurance coverage available for each deposit account in the event of failure. Pursuant to section 370.8(b)(1), one or more covered institutions may submit a request in the form of a letter to the FDIC for an exception from one or more of the requirements of part 370 if circumstances exist that would make it impracticable or overly burdensome to meet those requirements. Pursuant to section 370.8(b)(3), a covered institution may rely upon another covered institution's exception request which the FDIC has previously granted by notifying the FDIC that it will invoke relief from certain part 370 requirements and demonstrating that the covered institution has substantially similar facts and circumstances to those of the covered institution that has already received the FDIC's approval. The notification letter must also include the information required under section 370.8(b)(1) and cite the applicable notice published pursuant to section 370.8(b)(2). Unless informed otherwise by the FDIC within 120 days after receipt of a complete notification for exception, the exception will be deemed granted subject to the same conditions set forth in the FDIC's published notice.

These grants of relief may be rescinded or modified upon material change of circumstances or conditions related to the subject accounts, or upon failure to satisfy conditions applicable to each. These grants of relief will be subject to ongoing FDIC review, analysis, and verification during the FDIC's routine part 370 compliance tests. The following exceptions were
