

activities, regardless of performer, that occur at its installations.

(5) *Type of Respondents*: Respondents will primarily include DOE Management and Operations (M&O) contractors operating DOE installations and facilities. (6) *Estimated Number of Respondents*: DOE estimates that the number of respondents submitting their declaration under the U.S. AP through DOE will range from 10–15. The number will fluctuate on an annual basis. However, any person performing a declarable activity at a location for which DOE is the Lead Agency must report that activity through DOE, and the identity of such persons might change from year to year as declarable activities are initiated or terminated. (7) *Estimated Number of Burden Hours*: The burden in person-hours of responding to the proposed collection of information will depend on the number of declarable activities at the respondent's location. This estimate includes the effort required to identify these activities, collect information on them, complete the declarations, and submit them to DOE. This effort per collection might range from as low as 40 hours, for a person with one or two declarable activities, to as many as 400 hours, for a person with 30–40 declarable activities. This effort includes annual effort expended in maintaining and training with the software provided by DOE to collect and report the information as well as making the declaration.

Statutory Authority: 22 U.S.C. 1801, *et seq.*

Issued in Washington, DC, on September 30, 2008.

Kurt Siemon,

Acting Assistant Deputy Administrator for nonproliferation And International Security.

[Docket No. CP08–478–000]

Magnum Gas Storage, LLC; Notice of Application

September 30, 2008.

Take notice that on September 24, 2008, Magnum Gas Storage, LLC (MGS), 2150 South, 1300 East, Suite 500, Salt Lake City, Utah 84106, filed with the Commission a petition for Exemption of Temporary Acts and Operations from Certificate Requirements, pursuant to section 7(c)–(1)–(B) of the Natural Gas Act (NGA), and Rule 207–(a)–(5) of the Commission's Rules of Practice and Procedures. MGS requests an exemption for the temporary and limited purpose of drilling up to two test wells and to perform other activities to assess the optimal manner in which to develop an underground natural gas storage facility in the Magnum Salt Structure, located in the Millard County, Utah. All as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208–3676, or TTY, contact (202) 502–8659.

Any questions regarding the petition should be directed to counsel for MGS, James F. Bowe, Jr., Dewey & LeBoeuf LLP, 1101 New York Avenue, NW., Suite 1100, Washington, DC 20006, or via telephone at (202) 346–7999, facsimile number (202) 346–8102, or e-mail jbowe@dl.com.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the
