Amendment 10 to the Coral, Coral Reef and Live Hard Bottom Habitat FMP

The draft amendment currently addresses a request from the rock shrimp industry to create a Shrimp Fishery Access Area (SFAA) along the eastern boundary of the northern extension of the Oculina Bank Coral HAPC to allow rock shrimp trawling and access to historic rock shrimp fishing grounds. Vessels fishing for rock shrimp in the South Atlantic region are required to carry approved Vessel Monitoring Systems (VMS) to harvest or possess rock shrimp. Establishing a SFAA would allow access to the area at times where the species is found slightly west of the existing boundary while retaining the integrity of the eastern boundary of the Oculina Bank Coral HAPC, maintaining the prohibition on all other bottom tending gear.

During the scoping meetings, Council staff will present an overview of the amendment and will be available for informal discussions and to answer questions via webinar. Members of the public will have an opportunity to go on record to record their comments for consideration by the Council.
