Summary of Collection: 9 CFR part 11, Regulations, implement the Horse Protection Act of 1970 (Pub. L. 91-540), as amended July 13, 1976 (Pub. L. 94-360), and are authorized under section 9 of the Act. The Horse Protection Legislation was enacted to prevent showing, exhibiting, selling, or auctioning of "sore" horses, and certain transportation of sore horses in connection therewith at horse shows, horse exhibitions, horse sales, and horse auctions. A sore horse is a horse that has received pain-provoking practices that cause the horse to have an accentuated, high stepping gait. Sored horses cannot be entered in an event by any person, including trainers, riders, or owners. Management of shows, sales, exhibitions, or auctions must identify sored horses to prevent their participation under the act.

Need and Use of the Information:

APHIS will collect information at specified intervals from Horse Industry Organizations (HIO) and show managements. HIOs must maintain an acceptable Designated Qualified Person program and recordkeeping system as outlined in the regulations. Information provided by the HIOs through designated qualified persons allows APHIS to monitor whether enforcement of the Horse Protection Act, its regulations, and certifying programs are effective.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Economic Research Service

Title: Food Security Supplement to the Current Population Survey.

OMB Control Number: 0536-0043.

Summary of Collection: The Food Security Supplement is sponsored by the Economic Research Service (ERS) as a research and evaluation activity authorized under Section 17 of the Food Stamp Act of 1977 as amended. ERS is collaborating with the Food and Nutrition Service (FNS) and the Bureau of Census to continue this program of research and development. The Food Stamp Program (FSP) is currently the primary source of nutrition assistance for low-income Americans enabling households to improve their diet by increasing their food purchasing power. As the nation's primary public program for ensuring food security and alleviating hunger, the Food Stamp Program needs to regularly monitor food security conditions among its target population. This need requires that USDA continue basic data collection, analysis, and evaluation.

Need and Use of the Information: ERS will collect information from the Current Population Survey Food Security Supplement to routinely obtain data from a large, representative national sample in order to develop a measure that can be used to track the prevalence of food insecurity and hunger within the U.S. population, as a whole, and in selected population subgroups, and to continue development and improvement of methods for measuring these conditions. The data collected will partially fulfill the requirements of the Congressionally mandated 10-Year Plan for the National Nutrition Monitoring and Related Research Program.
