

Annual Assessment Form. (This is an on-line form that is completed and submitted electronically.) Partners are also encouraged to set waste reduction goals for the upcoming year. On an annual basis, partners are required to report, via the *Annual Assessment Form*, on the accomplishments of their waste prevention and recycling activities. Partners report the amount of waste prevented and recycled, amount of recycled-content materials purchased, and (where appropriate) the amount of recovered materials used in the manufacture of new products. They also provide WasteWise with information on total waste prevention revenue, total recycling revenue, total avoided purchasing costs due to waste prevention, and total avoided disposal costs due to recycling and waste prevention. Additionally, they are encouraged to submit new waste reduction goals.

Endorsers, which are typically trade associations or state/local governments, submit an *Endorser Registration Form* upon registering for the program. (This is an on-line form that is completed and is submitted electronically.) The Endorser Registration Form identifies the organization, the principal contact, and the activities to which the Endorser commits. EPA plans to expand the information requested of Endorsers by requiring them to submit a summary of their endorser activities annually. All registration and reporting information will be submitted electronically using the existing on-line, web-based data management and reporting system.

EPA's WasteWise program uses the submitted information to (1) Identify and recognize outstanding waste reduction achievements by individual organizations, (2) compile results that indicate overall accomplishments of WasteWise members, (3) identify cost-effective waste reduction strategies to share with other organizations, (4) identify topics on which to develop technical assistance materials and other information, and (5) further encourage the growth of industry-specific sustainable practices.

Burden Statement: The respondent burden for this collection is estimated to average 1 hour per response for the Partner Registration Form, 34.5 hours per response for the Partner Annual Assessment Form, 3 hours per response for the Endorser Registration Form, and 5 hours per response for the Endorser Annual Assessment Form. This results in an estimated annual partner respondent burden of 51 hours for new partners, 48 hours for established partners, 7 hours for new endorsers, and 3 hours for established endorsers.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Businesses, not-for-profit institutions, and State, Local, or Tribal governments.

Estimated Number of Respondents: 1,222.

Frequency of Response: On occasion.
Estimated Total Annual Hour Burden: 25,844.

Estimated Total Annual Cost: \$2,138,570, includes \$2,138,570 annualized labor costs and \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 44,506 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to an update in the number of partners to reflect who are the active partners, as well as an online reporting system that has greatly reduced burden for respondents and the agency.

Dated: June 16, 2011.

John Moses,

Director, Collection Strategies Division.

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for TransAlta Centralia Generation, LLC—Coal-Fired Power Plant

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This document announces that the EPA Administrator has responded to a citizen petition asking EPA to object to an operating permit

issued by the Southwest Clean Air Agency (SWCAA). Specifically, the Administrator has denied the October 29, 2009 petition, submitted by EarthJustice on behalf of the Sierra Club, the National Parks Conservation Association, and the Northwest Environmental Defense Center (Petitioners), to object to the September 16, 2009, operating permit issued to TransAlta Centralia Generation, LLC for a coal-fired power plant in Centralia, Washington. Pursuant to sections 307(b) and 505(b)(2) of the Clean Air Act (CAA), a petition for judicial review of those parts of the Order that deny issues in the petition may be filed in the United States Court of Appeals for the appropriate circuit within 60 days from the date this notice appears in the **Federal Register**.

ADDRESSES: You may review copies of the final Order, the petition, and other supporting information at the Office of Air, Waste and Toxics, EPA Region 10, 1200 Sixth Avenue, Seattle Washington, 98101.

EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the copies of the final order, the petition, and other supporting information. You may view the hard copies Monday through Friday, 8 a.m. to 4 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final order for the TransAlta Centralia plant is available electronically at: http://www.epa.gov/region7/air/title5/petitiondb/petitions/transalta_response2009.pdf.

FOR FURTHER INFORMATION CONTACT: Sara Bent at telephone number: (206) 553-6350, e-mail address: bent.sara@epa.gov or the above EPA, Region 10 address.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review, and object to as appropriate, a Title V operating permit proposed by State permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a Title V operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issue arose after this period.

EPA received a petition from the Petitioners dated October 29, 2009,

requesting that EPA object to the issuance of the Title V operating permit to TransAlta Centralia Generation, LLC for the operation of a coal-fired power plant in Centralia, Washington for the following reasons: (I) The Title V permit failed to provide for the control of carbon dioxide emissions, an air contaminant that is detrimental to human health and welfare, property, and business; (II) The Title V permit failed to provide for the control of mercury emissions, an air contaminant that is detrimental to human health and welfare, property, and business; (III) The Title V permit failed to provide for adequate control of nitrogen oxide emissions, an air contaminant that is detrimental to human health and welfare, property, and business; (IV) The Title V permit failed to require Reasonably Available Control Technology for the control of carbon dioxide emissions or for mercury emissions; and (V) The Title V permit's start-up, shut-down and malfunction provisions are contrary to recent case law interpreting the requirements of the Clean Air Act.

On April 28, 2011, the Administrator issued an order denying the petition. The order explains the reasons behind EPA's conclusion to deny the petition for objection.

Dated: June 10, 2011.

Michelle L. Pirzadeh,

Deputy Regional Administrator, Region 10.

Notice of Meeting of the EPA's Children's Health Protection Advisory Committee (CHPAC)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the next meeting of the Children's Health Protection Advisory Committee (CHPAC) will be held July 13 and 14 at Mount Vernon Place, 900 Massachusetts Ave., NW., Washington, DC 20001. The CHPAC advises the Environmental Protection Agency on science, regulations, and other issues relating to children's environmental health.

DATES: The CHPAC will meet from 9 a.m. to 5:30 p.m. on July 13 and from 8:30 a.m. to Noon on July 14, 2011.

ADDRESSES: Mount Vernon Place, 900 Massachusetts Ave., NW., Washington, DC 20001.

FOR FURTHER INFORMATION CONTACT: Martha Berger, Office of Children's Health Protection, USEPA, MC 1107T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 564-2191, berger.martha@epa.gov.

SUPPLEMENTARY INFORMATION: The meetings of the CHPAC are open to the public. The final agenda will be posted at <http://www.epa.gov/children>.

Access: For information on access or services for individuals with disabilities, please contact Martha Berger at 202-564-2191 or berger.martha@epa.gov.

Dated: June 10, 2011.

Khesha Reed,

Acting Designated Federal Official.

Science Advisory Board Staff Office; Notification of a Public Teleconference and Meeting of the SAB Radiation Advisory Committee for the Advisory Review of EPA's Draft Technical Report Pertaining to Uranium and Thorium In-Situ Leach Recovery and Post-Closure Stability Monitoring

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office announces a public meeting and teleconference of the Radiation Advisory Committee (RAC) augmented for an advisory review of EPA's draft report "*Considerations Related to Post-Closure Monitoring of Uranium In-Situ Leach/In-Situ Recovery (ISL/ISR) Sites.*"

DATES: The public teleconference will be conducted on July 12, 2011 from 1 p.m. to 4 p.m. (Eastern Daylight time). The two-day meeting will begin at 9 a.m. on Monday, July 18, 2011 and adjourn no later than 5 p.m. on Tuesday, July 19, 2011.

ADDRESSES: The public teleconference will be conducted by telephone only. The two-day meeting will be held at the Saint Regis Hotel, 923 16th and K Streets, NW., Washington, DC 20006.

Purpose of the Teleconference and Meeting: The purpose of the July 12,

2011 teleconference is to discuss and seek clarification of EPA's charge to the RAC, discuss the draft agenda for the face-to-face meeting of July 18 and 19, 2011, as well as to discuss committee assignments. The purpose of the July 18 and 19, 2011 meeting is to receive presentations from the Agency staff, discuss responses to the charge questions, receive public comment and begin to draft the response.

Availability of Meeting Materials: A roster and biosketches of the augmented RAC, the meeting agenda, the charge to the SAB for the advisory, and other supplemental materials will be posted on the SAB Web site at <http://www.epa.gov/sab> prior to the teleconference and meeting.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Notice may contact Dr. K. Jack Kooyoomjian, Designated Federal Officer (DFO), SAB Staff Office (1400R), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; or by telephone/voice mail at (202)-564-2064, or via email at kooyoomjian.jack@epa.gov. The review materials may be found at <http://yosemite.epa.gov/sab/sabproduct.nsf/c91996cd39a82f648525742400690127/0314cef928df63cc8525775200482fa3!OpenDocument>. General information concerning the EPA Science Advisory Board can be found at the EPA SAB Web site at <http://www.epa.gov/sab>.

Technical Contact: Technical background information pertaining to Uranium In-Situ Leach Recovery—Post-Closure Stability Monitoring can be found at <http://www.epa.gov/radiation/tenorm/pubs.html>. Information pertaining to EPA's regulatory standards in 40 CFR part 192—Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings can be found at <http://yosemite.epa.gov/oepi/rulegate.nsf/byRIN/2060-AP43?opendocument>. For questions concerning the technical aspects of this topic, please contact Dr. Mary E. Clark of the U.S. EPA, ORIA by telephone at (202) 343-9348, fax at (202) 343-2395, or e-mail at clark.marye@epa.gov.

SUPPLEMENTARY INFORMATION: *Background:* The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDAA), codified at 42 U.S.C. 4365 to provide independent scientific and technical peer review advice, consultation and recommendations to the EPA Administrator on the technical basis for Agency actions, positions and regulations. As a Federal Advisory Committee, the SAB conducts business
