Pipeline Safety: Renewal of Information Collection: OMB Approval and Comment Request

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Request for public comments and OMB approval.

SUMMARY: This notice requests public participation in the Office of Management and Budget (OMB) approval process regarding the renewal of an existing RSPA/Office of Pipeline Safety (OPS) collection of information for Operator Qualification of Pipeline Personnel. RSPA/OPS published a notice requesting public comment on April 18, 2002 (67 FR 19312–13). RSPA/OPS is offering the public another opportunity to comment on this information collection. It is also requesting OMB approval for renewal of this information collection under the Paperwork Reduction Act of 1995. The public is invited to submit comments on ways to minimize the burden associated with collection of information related to the operator qualification requirements in the pipeline safety regulations, as well as other factors listed in the body of this notice.

DATES: Comments on this notice must be received within 30 days of the publication date of this notice to be assured of consideration.

ADDRESS: Interested persons are invited to send comments directly to The Office of Management and Budget, Office of Information and Regulatory Affairs, 726 Jackson Place Washington, DC 20503 ATTN: Desk Officer for the Department of Transportation.

Comments can be reviewed at the U.S. Department of Transportation Dockets Facility, Plaza 401, 400 Seventh Street, SW., Washington, DC which is open from 10 a.m. to 5 p.m., Monday through Friday, except on Federal holidays, when the facility is closed. Documents pertaining to this notice can be viewed

in this docket. The docket can also be viewed electronically at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT:

Marvin Fell, (202) 366–6205, to ask questions about this notice; or write by e-mail to marvin.fell@rspa.dot.gov.

SUPPLEMENTARY INFORMATION:

In response to the notice published on April 18, 2002 (67 FR 19312–13) one comment was received. A company which provides records management services for the pipeline industry suggested that RSPA/OPS overestimated the costs of this information collection. Because this was the only comment received, RSPA/OPS does not believe there is enough evidence to reduce the cost estimate of this information collection.

Comments are invited on: (a) The need for the proposed collection of information for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Title: National Operator Qualification of Pipeline Personnel.

Type of Request: Renewal of existing information collection.

Abstract: Congressional concern with the lack of skills of some pipeline personnel was expressed in the Pipeline Safety and Reauthorization Act of 1988 (Pub. L. 100–561). It authorized the Secretary of Transportation to require all individuals responsible for the operation and maintenance of pipeline facilities to be properly qualified to safely perform tasks on pipeline facilities. The operator qualification requirements are described in the pipeline safety regulations at 49 CFR Part 192, subpart N and 49 CFR Part 195, subpart G.

Respondents: Gas and hazardous liquid pipeline operators.

Estimated Number of Respondents: 50,000.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 466,667 hours.

Issued in Washington, DC on July 12, 2002.

Associate Administrator for Pipeline Safety.

[STB Docket No. AB-473 (Sub-No. 1X)]

West Texas & Lubbock Railroad Company, Inc.—Abandonment Exemption—in Lubbock County, TX

West Texas & Lubbock Railroad Company (WTLR) has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon a 1.1-mile line of railroad from milepost 1.1, at University Avenue, eastward to milepost 0.0, at the interchange with The Burlington Northern and Santa Fe

Railway Company near North Avenue U, in the City of Lubbock, Lubbock County, TX. The line traverses United States Postal Service Zip Code 79415.

WTLR has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines;¹ (3) no formal complaint filed by a user of rail service on the line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Surface Transportation Board (Board) or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental reports), 49 CFR 1105.8 (historic reports), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the abandonment and discontinuance shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed. Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on August 16, 2002, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,² formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),³ and trail use/rail banking requests under 49 CFR 1152.29 must be filed by July 29, 2002. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by August 6, 2002, with: Surface Transportation

Board, 1925 K Street, NW., Washington, DC 20423.

A copy of any petition filed with the Board should be sent to applicant's representatives: Gary A. Gitomer, Ball Janik LLP, 1455 F St., NW., Suite 225, Washington, DC 20005.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

WTLR has filed an environmental report which addresses the abandonment's effects, if any, on the environment and historic resources. SEA will issue an environmental assessment (EA) by July 22, 2002. Interested persons may obtain a copy of the EA by writing to SEA (Room 500, Surface Transportation Board, Washington, DC 20423) or by calling SEA, at (202) 565-1552. [TDD for the hearing impaired is available at 1-800-877-8339.] Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), WTLR shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by WTLR's filing of a notice of consummation by July 17, 2003, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our website at WWW.STB.DOT.GOV.

Decided: July 10, 2002.
