Federal Register

Vol. 79, No. 30

Thursday, February 13, 2014

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

[Docket No. FAA-2013-0757; Airspace  
Docket No. 13-ASO-19]

#### Amendment of Class D and Class E Airspace; Christiansted, St. Croix, VI

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action amends the Class D and Class E airspace at Christiansted, St. Croix, VI, by adjusting the geographic coordinates of Henry E. Rohlsen Airport. The airport name also is changed from Alexander Hamilton Airport. This action brings current the effected charting and enhances airspace management within the National Airspace System.

**DATES:** Effective 0901 UTC, April 3, 2014. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

#### SUPPLEMENTARY INFORMATION:

#### History

On December 2, 2013, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to modify Class D airspace and Class E airspace extending upward from 700 feet above the surface by changing the airport name and amending the geographic coordinates of Henry E.

Rohlsen Airport, Christiansted, St. Croix, VI, to bring it in concert with the FAAs aeronautical database (78 FR 72056). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class D and E airspace designations are published in paragraphs 5000, and 6005, respectively of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

#### The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 modifies Class D airspace and Class E airspace extending upward from 700 feet above the surface airspace by amending the geographic coordinates of Henry E. Rohlsen Airport, Christiansted, St. Croix, VI, to bring it in concert with the FAAs aeronautical database. The coordinates are changed from (lat. 17°42'07" N., long. 64°47'55" W.) to (lat. 17°42'06" N., long. 64°48'06" W.). Also, the airport formerly called Alexander Hamilton Airport is changed to Henry E. Rohlsen Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator.

Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Henry E. Rohlsen Airport, Christiansted, St. Croix, VI.

#### Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment

[Docket No. FAA-2013-0682; Airspace Docket No. 13-ASO-17]

#### **Amendment of Class E Airspace; McMinnville, TN**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action amends Class E Airspace at McMinnville, TN, as the Warri Non-Directional Beacon (NDB) has been decommissioned and new standard instrument approach procedures developed for Instrument Flight Rules (IFR) operations at Warren County Memorial Airport. This

enhances the safety and management of aircraft operations at the airport.

**DATES:** Effective 0901 UTC, April 3, 2014. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

#### **SUPPLEMENTARY INFORMATION:**

##### **History**

On September 24, 2013, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend Class E airspace at Warren County Memorial Airport, McMinnville, TN. (78 FR 58489). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

##### **The Rule**

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 amends Class E airspace extending upward from 700 feet above the surface within a 7.2-mile radius of Warren County Memorial Airport, McMinnville, TN. Airspace reconfiguration is necessary due to the decommissioning of the Warri NDB and cancellation of the NDB approach, and for continued safety and management of IFR operations at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic

procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
