Regulations implementing the FMP and their collection of information appear at 50 CFR 600.305, 50 CFR 600.315, and 50 CFR 622.5.

The need to collect percent ownership in a corporation from permit holders is necessary information for the red snapper Individual Fishing Quota (IFQ) program. The IFQ program has a cap of six percent on share percent ownership. Without the ability to track corporate shareholder information, NOAA Fisheries Service will be unable to enforce this share ownership cap. Additionally, crew size is being collected to better understand the nature of the fishery, the number of participants who are not permit holders, and the potential socioeconomic effects of regulations within a given fishery.
