[Docket No. RP20–1195–000]

Rockies Express Pipeline LLC; Notice of Petition for Declaratory Order

Take notice that on September 15, 2020, pursuant to Rule 207(a)(2) of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.207(a)(2) (2020), Rockies Express Pipeline LLC (Rockies Express) filed a petition for a declaratory order seeking a Commission order holding that if Gulfport Energy Corporation (Gulfport) files for bankruptcy, the Commission will have concurrent jurisdiction, under Sections 4 and 5 of the Natural Gas Act, 15 U.S.C. 717c and 717d (2018), with U.S. Bankruptcy Courts with respect to Rockies Express' three negotiated rate, anchor shipper, firm transportation service agreements with Gulfport (Gulfport TSAs). The petition also requests that the Commission exercise that jurisdiction to establish an adjudicative proceeding to affirm that continued performance under the Gulfport TSAs does not seriously harm the public interest and that any party wishing to abrogate the Gulfport TSAs carries the burden of establishing that the public interest mandates such abrogation, all as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to

the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene, or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. k. *Description of Request:* The applicant requests a temporary variance to maintain the water elevation at the Blewett Falls Lake below the current license limits in order to allow for spillway modifications to take place at the Blewett Falls Dam. When the flashboards on the spillway need to be replaced, an additional drawdown of 2 feet, to an elevation of 170.1 feet NGVD 29 is allowed. To complete the work on the spillway, the applicant is proposing to lower the Blewett Falls lake level up to an additional 1 foot below this maximum allowance, or 9 feet below full pond, to an elevation of 168.1 feet NGVD 29. The applicant proposes to maintain this lowered water elevation for a period beginning in October 2020 and lasting for 24 months, and states that maintaining the elevation at this level is needed to provide its contractor safe access to the spillway crest for the duration of the work associated with the spillway. During this time, the applicant states that the boat ramp at the Pee Dee Access area will remain usable, but the boat ramp at the Grassy Island Access area will be closed.
