Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed revised information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning information required by FEMA to revise National Flood Insurance Program (NFIP) Maps.

SUPPLEMENTARY INFORMATION: With the passage of the Flood Disaster Protection Act of 1973, an owner of a structure, with a federally backed mortgage, located in the 1-percent annual chance floodplain, was required to purchase federal flood insurance. This was in response to the escalating damage caused by flooding and the unavailability of flood insurance from commercial insurance companies. As part of this effort, FEMA mapped the 1-percent annual chance floodplain in communities. However, the 1-percent annual chance floodplain may change due to changes within the floodplain, or may be more accurately depicted through the use of more up-to-date methods and data. FEMA will issue a Letter of Map Revision (LOMR) to officially revise the 1-percent annual chance floodplain.

Collection of Information

Title: Revision to National Flood Insurance Program Maps: Application Forms for LOMRs and Conditional LOMRs.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 1660-0016.

Form Numbers: FEMA Forms 81-89, 81-89A, 81-89B, 81-89C, 81-89D, 81-89E.

Abstract: The certification forms (referred to as MT-2 series forms) are designed to assist requesters in gathering information that FEMA needs

to revise a NFIP map. FEMA Form 81-89, Overview and Concurrence Form, describes the location of the request, what is being requested, and what data are required to support the request. In addition, NFIP regulations 44 CFR 65.5(a)(4) require that a community official certify that the request complies with minimum floodplain management criteria specified in 44 CFR 60.3. This form ensures that this requirement is fulfilled prior to the submittal of the request to FEMA. FEMA Form 81-89A, Riverine Hydrology and Hydraulics Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of hydrologic and hydraulic analyses performed in support of a revision request. It also addresses more common regulatory issues; FEMA Form 81-89B, Riverine Structures Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of revision requests involving new or modified structures in riverine flood hazard areas; FEMA Form 81-89C, Coastal Analysis Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of coastal analyses performed in support of a revision request. It also addresses more common regulatory issues; FEMA Form 81-89D, Coastal Structures Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of revision requests involving new or modified structures in coastal flood hazard areas; FEMA Form 81-89E, Alluvial Fan Flooding Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of alluvial fan flooding analyses performed in support of a revision request.

Affected Public: Business and other for profit organization such as Land Surveyors or Engineering firms will primarily be affected by the collection. In addition, home owners, local or state officials may also be affected in some instances.
