**Atlantic Highly Migratory Species; Technical Amendment to Regulations**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule; technical amendments.

**SUMMARY:** NMFS is hereby making technical amendments to the regulations for Atlantic highly migratory species. Currently, certain cross-references meant to be in the regulations are either missing or incorrect. This final action will make the cross-references in the regulations accurate. The action also simplifies regulatory text by removing unnecessary language. The rule is administrative in nature and does not make any change with substantive effect to the regulations governing Atlantic highly migratory species (HMS) fisheries.

**DATES:** This final rule is effective on January 11, 2017.

**ADDRESSES:** Copies of other documents relevant to this rule are available from the HMS Management Division Web site at <http://www.nmfs.noaa.gov/sfa/hms/> or upon request from the Atlantic HMS Management Division at 1315 East-West Highway, Silver Spring, MD 20910.

**FOR FURTHER INFORMATION CONTACT:** Larry Redd or Karyl Brewster-Geisz by phone at 301–427–8503.

**SUPPLEMENTARY INFORMATION:** Atlantic HMS are managed under the dual authority of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, (Magnuson-Stevens Act) and the Atlantic Tunas Convention Act, 16 U.S.C. 971 *et seq.*, (ATCA). The authority to issue regulations under the Magnuson-Stevens Act and ATCA has been delegated from the Secretary of Commerce to the NOAA Assistant Administrator for Fisheries (AA). On May 28, 1999, NMFS published in the *Federal Register* (64 FR 29090) regulations implementing the Fishery Management Plan (FMP) for Atlantic Tunas, Swordfish, and Sharks (1999 FMP). On October 2, 2006, NMFS

published in the *Federal Register* (71 FR 58058) regulations implementing the 2006 Consolidated HMS FMP, which details the management measures for Atlantic HMS fisheries. The implementing regulations for Atlantic HMS are at 50 CFR part 635.

**Background**

The regulations in 50 CFR 635.71 contain specific prohibitions, and those prohibitions contain or should contain regulatory cross-references specific to the regulatory requirements in other sections of 50 CFR part 635. The regulatory text in § 635.71 ensures that person(s) under United States jurisdiction are in compliance with the Federal rules promulgated under the Atlantic Tunas Convention Act and the Magnuson-Stevens Fishery Conservation and Management Act when fishing for Atlantic HMS. This technical amendment corrects the cross-references in the HMS regulations. It also simplifies regulatory text at § 635.71(b)(23) by removing unnecessary language.

**Corrections**

The regulations at § 635.71(a)(9), (b)(21), (e)(9), and (e)(10) are missing a clarifying cross-reference. This final action adds a cross reference to those regulations.

Additionally, the regulations at § 635.71(a)(17), (a)(18), (a)(37), (a)(54), (a)(56), (a)(59), (b)(36), (b)(37), (b)(39), (b)(40), and (e)(17) contain one or more incorrect cross-references. This final action corrects those cross-references. Additionally, § 635.71(b)(23) has an incorrect cross reference, which this action corrects. This action would remove language referencing that incidental to recreational fishing for other species would be retained in accordance with § 635.23(b) and (c), and simplifies the regulatory text to more broadly refer to the provisions of § 635.23.

**Classification**

The Assistant Administrator for Fisheries has determined that this final rule is necessary for the conservation and management of U.S. fisheries and that it is consistent with the Magnuson-Stevens Fishery Conservation and Management Act, the 2006 Consolidated Atlantic HMS FMP and its amendments, and ATCA.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment are unnecessary and contrary to the public

interest. This final rule makes only corrective, non-substantive changes to add missing, or correct, cross-references to HMS regulations or, in one instance, to remove confusing, unnecessary language, and is solely administrative in nature. Therefore, public comment would serve no purpose and is unnecessary. Furthermore, it is in the public interest to correct or insert the cross-references as quickly as possible to more clearly articulate the regulatory requirements to the public. Any delay in implementation would result in the continuation of incorrect cross-references in the regulations at 50 CFR 635. It is in the best interest of both the public and law enforcement to effectively enforce the new changes on publication to ensure person(s) are justifiably operating within U.S. law. Thus, there is also good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effective date.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

Because prior notice and opportunity for public comment are not required for this rule by 5 U.S.C. 553, or any other law, and a proposed rule is not being published, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are inapplicable.

NMFS has determined that fishing activities conducted pursuant to this rule will not affect endangered and/or threatened species or critical habitat listed under the Endangered Species Act, or marine mammals protected by the Marine Mammal Protection Act, because the action will not result in any change or increase in fishing activity, and is solely administrative in nature.
