

would be unable to determine if the standards are being met.

The required information consists of emissions data and other information that have been determined not to be private. However, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (*see* 40 CFR 2; 41 FR 36902, September 1, 1976; amended by 43 FR 40000, September 8, 1978; 43 FR 42251, September 20, 1978; 44 FR 1764, March 23, 1979).

Approximately 127 sources are currently subject to the standard. EPA estimates that three additional sources will become subject to the standard in each of the next three years.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Entities potentially affected by this action are each truck unloading station, truck loading station, barge and ship unloading station, barge and ship loading station, railcar loading station, railcar unloading station, grain dryer, and all grain handling operations at any grain terminal elevator or any grain storage elevator subject to NSPS subpart DD.

**Estimated Number of Respondents:** 132.

**Frequency of Response:** 155 annually.

**Estimated Total Annual Hour Burden:** 259.

**Estimated Total Annual Cost:** \$14,811.

**Changes in the Estimates:** There is an increase of 9 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This slight increase in burden results from the slight growth in the number of regulated grain elevators.

Dated: December 10, 2002.

## ENVIRONMENTAL PROTECTION AGENCY

[OECA-2002-0007; FRL-7427-3]

### Agency Information Collection Activities; Submission of EPA ICR No. 1167.07 (OMB No. 2060-0063) to OMB for Review and Approval; Comment Request

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS for Lime Manufacturing, (OMB Control No. 2060-0063, EPA ICR No. 1167.07). The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

**DATES:** Additional comments may be submitted on or before January 23, 2003.

**ADDRESSES:** Follow the detailed instructions in the **SUPPLEMENTARY INFORMATION** section.

#### FOR FURTHER INFORMATION CONTACT:

Gregory Fried, Compliance Assessment and Media Programs Division, Office of Compliance, mail code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number (202) 564-7016, fax number: (202) 564-0050; e-mail address: [fried.gregory@epa.gov](mailto:fried.gregory@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 20, 2002 (67 FR 41981), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OECA-2002-0007, which is available for public viewing at the Enforcement and Compliance Docket and Information Center (ECDIC) Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center (ECDIC) is (202) 566-1514. An electronic version of the public docket is available through EPA Dockets (DOCKET) at <http://www.epa.gov/edocket>. Use DOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice, and according to the following detailed instructions: (1) Submit your comments to EPA online using DOCKET (our preferred method), by e-mail to [oea@epa.gov](mailto:oea@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Mailcode: 2201T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) Mail your comments to OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in DOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in DOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in DOCKET. For further information about the electronic docket, *see* EPA's **Federal**

**Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

**Title:** NSPS for Lime Manufacturing (40 CFR part 60, subpart HH) (OMB Control No. 2060-0063, EPA ICR Number 1167.07). This is a request to renew an existing approved collection that is scheduled to expire on January 31, 2003. Under the OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

**Abstract:** The New Source Performance Standards (NSPS) for Lime Manufacturing Plants were proposed on May 3, 1977 and promulgated on April 26, 1984. These standards apply to each rotary lime kiln used in lime manufacturing, which commenced construction, modification or reconstruction after May 3, 1977. The standards do not apply to facilities used in the manufacture of lime at kraft pulp mills. The purpose of this NSPS is to control the emissions of particulate matter (PM) from lime manufacturing plants, specifically from the operation of the rotary lime kilns. The standards limit particulate emissions to 0.30 kilogram per megagram (0.60 lb/ton) of stone feed, and limit opacity to 15% when exiting from a dry emission control device. This information is being collected to assure compliance with 40 CFR part 60, subpart HH.

There are three types of reporting requirements for owners or operators of facilities under this NSPS: (1) Notifications (e.g., notice for new construction or reconstruction, anticipated and actual startup dates, initial performance test, and demonstration of the CMS); (2) a report on the results of the performance test; and (3) semiannual reports of instances of occurrence and duration of any startup, shutdown, or malfunctions. The purpose of the notifications are to inform the Agency or delegated authority when a source becomes subject to this standard. Performance tests are conducted to ensure that the new plants operate within the boundaries outlined in the standard. The semiannual reports are used for problem identification, as a check on source operation and maintenance, and for compliance determinations. Under this standard the data collected by the affected industry is retained at the facility for a minimum of two years and made available for inspection by the Administrator.

The Administrator has judged that PM emissions from lime manufacturing plants cause or contribute to air pollution that may reasonably be

anticipated to endanger public health or welfare. Owners/operators of lime manufacturing plants must notify EPA of construction, modification, startups, shutdowns, malfunctions and performance test dates, as well as provide reports on the initial performance test and annual excess emissions. The industry costs associated with the information collection activity in the standards are capital costs and O&M costs associated with continuous emissions monitoring and labor costs associated with recordkeeping and reporting. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 42 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Lime Manufacturing Plants.

**Estimated Number of Respondents:** 53.

**Frequency of Response:** On occasion, initial, and semiannual.

**Estimated Total Annual Hour Burden:** 4,434 hours.

**Estimated Total Annual Cost:** \$91,500.

**Changes in the Estimates:** There is an increase of 244 hours in the total

estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase in the number of existing facilities subject to this standard resulting from the availability of more accurate data.

Dated: December 10, 2002.

## ENVIRONMENTAL PROTECTION AGENCY

[OPP-2002-0283; FRL-7277-5]

### Bronopol; Notice of Filing a Pesticide Petition to Establish a Tolerance for a Certain Pesticide Chemical in or on Food

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the initial filing of a pesticide petition proposing the establishment of regulations for residues of a certain pesticide chemical in or on various food commodities.

**DATES:** Comments, identified by docket ID number OPP-2002-0283, must be received on or before January 23, 2003.

**ADDRESSES:** Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.

**FOR FURTHER INFORMATION CONTACT:** Bipin Gandhi, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8380; e-mail address: [gandhi.bipin@epa.gov](mailto:gandhi.bipin@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, pesticide manufacturer, or antimicrobial pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Industry (NAICS 111), e.g., Crop production.
- Industry (NAICS 112), e.g., Animal production.
- Industry (NAICS 311), e.g., Food manufacturing.
