

Committee's work session the Committee agreed with the proposed changes to remove N.4.1 and N.4.1.1 from the code and hearing no opposition or further requests for changes, moved the item forward with a "Voting" status.

Grain Moisture Meters

Item GMA-2 Table S.2.5. Categories of Devices and Methods of Sealing

The NCWM S&T Committee will consider a proposal that would require (on or after the effective date—TBD) grain moisture meters approved under the National Type Evaluation Program to comply with "category 3" sealing methods. This electronic method of sealing would require an event logger and the ability to generate a printed copy of audit trail information that is available through the device or through another on-site device. Prior to the 2019 Interim meeting, revised language was recommended and provided to the Committee to clarify when the proposed changes to the sealing requirements would apply. Comments on the history of this item were heard during the open hearing session. During the 2019 Interim Meeting the Committee recommended a "Voting" status for the original proposed item.

Item GMA-3 Table T.2.1. Acceptance and Maintenance Tolerances Air Oven Method for All Grains and Oil Seeds

The NCWM S&T Committee will consider a proposal that would reduce the tolerances applied to official grain samples used as reference standards established when using the Air Oven Reference Method. During the 2019 NCWM Interim Meeting, an S&T Committee member reported that concerns were raised with reducing the tolerance to all grain types. During the 2019 Interim Meeting's S&T Committee work session, the Committee assigned a "Developing" status to this item to allow more time to research the proposed changes to Table T.2.1.

Multiple Dimension Measuring Devices

Item MDM-2 S.1.7. Minimum Measurement

The NCWM S&T Committee has received the recommendation to withdraw the proposal intended to amend requirement S.1.7. Minimum Measurement to also provide an exemption from that requirement for "mobile tape-based" MDMD devices. This proposal would allow measurements of less than 12 divisions made using mobile tape-based devices to be used in the calculation of charges for shipping of parcels. During the 2019

NCWM Interim Meeting, comments heard were in opposition to this proposal. During the S&T Committee's work session, members agreed that there was little support for this item and agreed to "Withdraw" this proposal.

NCWM L&R Committee

The NCWM Laws and Regulations Committee (L&R Committee) will consider proposed amendments to NIST HB130 and NIST HB 133, which may relate to regulations on fuel quality and the packaging and labeling of goods and methods of sale and test procedures for other products or commodities.

The following items are proposals to amend NIST Handbook 130 and/or NIST Handbook 133:

NIST Handbook 130 and NIST Handbook 133

The following items are proposals to amend NIST Handbook 130 and NIST Handbook 133:

Item Block (B1)—HB 130, UPLR, Sec. 2.8. Multiunit Package. HB 133, Modify "scope" for Chapters 2 thru 4, add a note following Sections 2.3.7.1. and 2.7.3., create a Chapter 5. Specialized Test Procedures.

The L&R Committee will consider a proposal to add a Chapter 5. Specialized Test Procedures in NIST Handbook 133. The L&R Committee will be also addressing a proposal to include adoption of a test procedure for the total quantity declaration on multiunit or variety packages. In addition, in NIST Handbook 130, Uniform Packaging and Labeling Regulation it will clarify Section 2.8. Multiunit.

NIST Handbook 130

MOS-7—NIST Handbook 130, Uniform Method of Sale, Section 2.4. Fireplace and Stove Wood

The L&R Committee will consider a request to extend the effective date of Section 2.4.3.(a) Packaged natural wood sold in packaged form in quantities less than 0.45 m³ (1/8 cord or 16 ft³). This could change the effective date of enforcement from 2019 until 2021.

MOS-10 and MOS-11—NIST Handbook 130, Uniform Method of Sale, Section 2.37. Pet Treats or Chews

The L&R Committee will consider a request to reviews and proceed with one proposal for Pet Treats or Chews. Proposal MOS-10, will allow for an individual unit to be sold by count and to prescribe an enforceable date of January 1, 2021 to allow manufacturers ample time to modify labeling and use existing stocked labeling. Proposal MOS-11 will modify existing handbook language to grant an enforceable date of

January 1, 2021 and provide manufacturers time to modify labeling and use existing stocked labeling.

Item Block 5 (B5)—ODR-2, Handbook 130, Open Dating Regulation and WAM-1 Update to Weights and Measures Law, Section 9. Requirement for Open Dating and Section 12. Powers and Duties of the Director

Within Item Block 5—ODR-2, the L&R Committee will consider a recommended proposal to remove the Open Dating Regulation in its entirety from NIST Handbook 130.
