**SUPPLEMENTARY INFORMATION:** The Imperial Sand Dunes Recreation Area (ISDRA) and surrounding lands included in the planning area encompass about 215,000 acres, of which approximately 12,000 acres are non-Federal lands for which these planning decisions do not apply. The planning area is located in the southeastern portion of Imperial County, California, and is part of the CDCA. The primary recreation activities in the ISDRA include off-highway vehicle use, camping, backcountry auto touring, and sightseeing. The planning area also contains the North Algodones Dunes Wilderness, two Areas of Critical Environmental Concern, and habitat for several sensitive species. The RAMP/CDCA Plan Amendment and Final Environmental Impact Statement (EIS) were developed through a collaborative planning process that considered eight alternatives. The U.S. Customs and Border Protection-Border Patrol and Imperial County were cooperating agencies. Though not a cooperating agency, the U.S. Fish and Wildlife Service was involved throughout the planning process. Formal and informal consultation and contacts were made with interested tribal entities, including 17 tribal governments, the Native American Heritage Commission, and the State Historic Preservation Office. The Proposed RAMP/CDCA Plan Amendment and Final EIS were released on September 14, 2012. Eight alternatives were analyzed in the Proposed RAMP/CDCA Plan Amendment and Final EIS. The BLM selected Alternative 8, the Proposed Plan, as the best approach to maintaining the naturalness of the Imperial Sand Dunes Recreation Area and managing recreation uses, while still protecting the resources and values for which the area was established. Since release of the Proposed RAMP/CDCA Plan Amendment and Final EIS, the BLM requested a Consistency Review by the Governor's Office of Planning and Research, and received three protests, one each from the American Sand Association, the Center for Biological Diversity and other conservation groups, and the Sanitation Districts of Los Angeles County. The BLM also received a comment letter from the Environmental Protection Agency (EPA). The Governor's Consistency Review found no inconsistencies between the Proposed RAMP and any State or local plan, policies, or programs. In response to the protests and EPA comment letter, the BLM made only minor editorial modifications in preparing the ROD for
