

8. Berried female possession requirement to allow landing of egg-bearing female Jonah crabs for research purposes (§ 697.20(h)(2)(i) and (ii)).

This survey has occurred annually since 2006 in Massachusetts state waters. The EFP would authorize three participating vessels to deploy three standard and three ventless traps per six-pot trawl. Stations would be sampled twice per month from June through October 2022. Sampling trips would occur after a soak time of approximately 3 days and at least one MA DMF scientist would be on board for the sampling trips. MA DMF personnel would not be on board when traps are baited and deployed. All gear would be Atlantic Large Whale Take Reduction Plan compliant. Survey traps will be separate from each vessel's commercial lobster traps and would be tagged as, "MADMF Research Traps."

All catch during sampling trips would be retained temporarily to collect biological data. MA DMF staff may collect lobsters and/or Jonah crabs, including undersized, oversized, v-notched, and egg-bearing females. Collected samples would be used for research projects on growth and maturity. No catch from the experimental trips would be landed for sale.

If approved, MA DMF may request minor modifications and extensions to the EFP throughout the study. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

Authority: 16 U.S.C. 1801 *et seq.*

SUPPLEMENTARY INFORMATION:

Title: Associated Form; and *OMB Number:* New Parent Support Program Evaluation; OMB Control Number 0704-NPSP.

Needs and Uses: The Military Community & Family Policy Family

Advocacy Program (FAP) within the DoD's Office of the Deputy Assistant Secretary of Defense (OSD) is requesting Office of Management and Budget clearance for the New Parent Support Program (NPSP) Evaluation. OSD FAP contracted with Pennsylvania State University for this data collection to assist in understanding the benefits and limitations of using a DoD developed, standardized, evidence-informed home visitation curriculum (*i.e.*, Take Root Home Visitation [TRHV]) within the NPSP. TRHV is a tailorable home visitation curriculum that addresses risk and protective factors for child maltreatment, which is a primary focus of NPSP home visitation. TRHV is designed to be used by home visitors to structure their time with their clients and their families. TRHV helps home visitors actively work with parents to strengthen core parenting skills, improve the parent-child bond, and promote positive child development. During visits, home visitors will use TRHV to collaborate with parents on identifying areas of strength and challenge, discuss ideas and strategies that can help parents achieve their goals, engage in role play or other skill building activities to help parents master core concepts, observe parents as they interact with their child and provide feedback, provide parents with handouts and other relevant materials, and assign skill practice homework to be completed between visits.
